

Human Resources

Equal Employment Opportunity Plan
Analysis of District Workforce,
Applicant Pool and New Hires

BOARD OF TRUSTEES MEETING

JUNE 6, 2017

EEO Data Analysis Overview

- This year's objective is to analyze demographic trends over a four-year period to obtain a clearer picture and gain a better understanding of where to focus outreach, recruitment, and hiring/selection efforts to become more diversified in all areas and on all campuses
- This analysis has been conducted differently and the data analyzed was broken down into groups that are currently influenced *primarily* by the same recruiting and selection efforts, procedures, and practices
- The analysis highlights significant trends in employee demographics for:
 - Districtwide Applicants, New Hires, Workforce
 - Fresno City College New Hires & Workforce
 - Reedley College New Hires & Workforce
 - Clovis Community College New Hires & Workforce
 - District Office New Hires & Workforce
- Applicant and new hire data represents fiscal years 2012-13 through 2015-16
- Workforce data is as of February each year from 2013-2017
- Please note: the District began collecting data on persons with disabilities in April 2017. This data will be reported after another year of collection

Recommendations

Recruitment

- Districtwide focus on *increasing the applicant and new hire populations* in:
 - **Hispanic** for both classified and academic positions
 - **African American** for both classified and academic positions
 - **Asian/Pacific Islander** for both classified and academic positions
 - **Male** for classified positions
- Expand recruitment efforts in publications /websites for professional minority groups (higher ed & community)
- Market employee recruitment on radio stations that have high ethnic demographics (multiple languages) and/or on ethnic publications
- Develop “Fresno Friendly” promotional materials highlighting the benefits of living in the Central Valley to attract non-local applicants
- Review language in classified job titles & descriptions - add language that attracts candidates in monitored groups
- Attend minority career fairs and connect with national professional minority organizations

Recommendations Continued

Recruitment (continued)

- Engage with different local civic and community-based organizations such as the Latino Chamber of Commerce and the Fresno Metro Black Chamber of Commerce
- Use diverse images and a diversity statement/vision on our HR/Career page on website
- Post testimonials on the HR/Career page from employees from monitored groups
- Survey different campus groups such as the African American Faculty and Staff Association, the Asian American Faculty and Staff Association, and the Latino Faculty and Staff Association for their suggestions and connections for outreach and recruitment

Selection

- Monitor selection committees for diversity; expand committee membership if necessary
- Monitor candidate pools for diversity at each stage of the recruitment process to identify potential barriers for specific minority groups
- Ensure all hiring committees consider the use of skype or scopia for interviewing non-local candidates

Recommendations Continued

Train & Retain

- Train employees and hiring committees frequently in EEO and unconscious bias
- Provide and require diversity, cultural competency, and sensitivity training to all employees on a regular basis
- Establish mentoring programs that focus on increasing diversity awareness/cultural competency for current and new faculty and staff
- Faculty internships
- Have “Open House” or “Diversity Day” events on all campuses and invite community members and minority organizations (highlighting diversity with campus groups, speakers, workshops, art, music, literature, and recruitment info)
- Increase employee engagement with EEO Advisory Committee

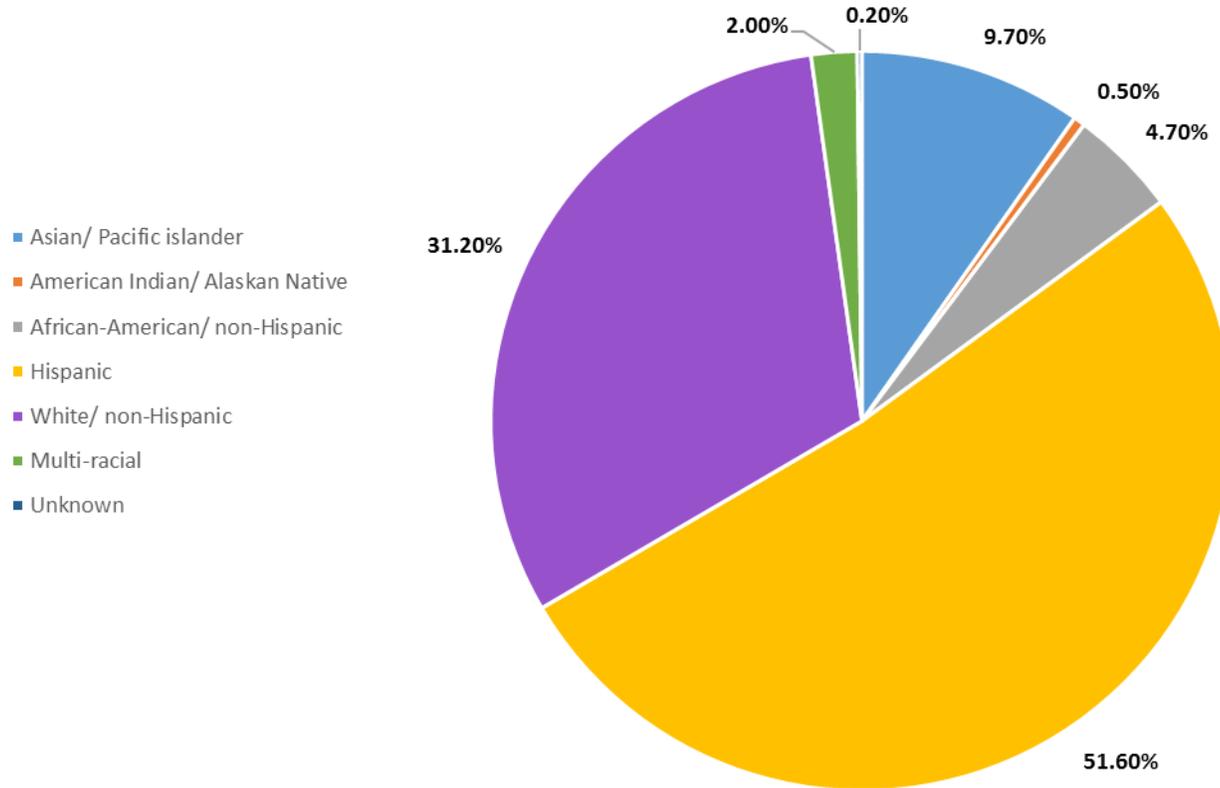

Demographics

- Applicants are increasingly identifying as Multi-Racial or “Unknown”
- Focus on all monitored groups, but in particular on Hispanic
 - Severely underrepresented Districtwide in comparison to county and student demographics
- Develop local talent/grow-your-own programs
 - Challenges with local pool for faculty positions
 - CCCCCO requires master’s degree to teach academic disciplines
 - 2014 Forbes article – Fresno ranked 10th least educated city in America
 - Only approx. 6.8% of population age 25+ in Fresno County has an advanced degree
