(12) Catalog Description:
 Designed specifically to improve physical fitness appropriate for intercollegiate track and field through resistance training exercises using free/machine weights. The following Components of Physical Fitness will be emphasized: muscular endurance, muscular strength, body composition, flexibility, and cardio-respiratory endurance. Students in this course must perform and compete at the intercollegiate level.

II. COURSE OUTCOMES:

(Specify the learning skills the student demonstrates through completing the course and link critical thinking skills to specific course content and objectives.)

Upon completion of this course, students will be able to:

- I. use proper weight room safety within a team setting.
- II. demonstrate proper lifting techniques related to specific track and field positions.
- III. illustrate a basic knowledge of muscle groups and their application in the weight room.
- IV. apply proper nutritional choices required to help acquire/maintain a healthy body composition.
- V. recognize the five (5) components of physical fitness and understand how they relate to the development of track and fields performance.

III. COURSE OBJECTIVES:

(Specify major objectives in terms of the observable knowledge and/or skills to be attained.)

In the process of completing this course, students will:

- I. evaluate and critique current fitness levels appropriate for intercollegiate track and field
- II. plan, implement , and practice appropriate fitness activities that promote improved levels of muscular strength, muscular endurance, cardio-respiratory endurance, flexibility, and body composition.

IV. COURSE OUTLINE:

Lab Content:

- A. Introduction
 1. Grading/evaluation process
 2. Appropriate exercise attire
 3. Weight room etiquette and safety
- B. Introduction of training program
 1. Weight room procedures
 2. Care and use of equipment

4. Proper partner-spotting procedures

C. Instruction in:

1. Proper lifting techniques for position-specific exercises
2. Proper lifting order and count
3. Dietary habits and its effects (positive/negative) on body composition

D. Pre-test assesment of student's physical fitness level

1. Muscular strength & endurance
2. Body composition
 - a. % fat weight
3. Flexibility
 - a. Sit- reach test

E. Post-test assesment of student's physical fitness level

1. Muscular strength & endurance
2. Body composition
 - a. % fat weight
3. Flexibility
 - a. Sit- reach test

G. Final evaluation of the student's continued participation in the course to be determined by head track and field coach

V. APPROPRIATE READINGS

Reading assignments may include but are not limited to the following:

I. Sample Text Title:

1. Recommended - Brown, Lee *Strength Training*, National Strength & Conditioning Association, 2007,

II. Other Readings

- Global or international materials or concepts are appropriately included in this course
- Multicultural materials and concepts are appropriately included in this course

If either line is checked, write a paragraph indicating specifically how global/international and/or multicultural materials and concepts relate to content outline and/or readings.

While discussing and testing body composition, we address dietary concepts that are specific to various ethnic populations. We encourage students to make healthful lifestyle changes to their diets and activity levels that will improve their overall quality of life as well as their track and field performance level.

VI. METHODS TO MEASURE STUDENT ACHIEVEMENT AND DETERMINE GRADES:

Students in this course will be graded in at least one of the following four categories. Please check those appropriate. A degree applicable course must have a minimum of one response in category A, B, or C.

A. Writing			
Check either 1 or 2 below			
<input type="checkbox"/>	1. Substantial writing assignments are required. Check the appropriate boxes below and provide a written description in the space provided.		
<input checked="" type="checkbox"/>	2. Substantial writing assignments are NOT required. If this box is checked leave this section blank. For degree applicable courses you must complete category B and/or C.

<input type="checkbox"/>	b) true/false	<input type="checkbox"/>	e) other (specify):
<input type="checkbox"/>	c) matching items		

COURSE GRADE DETERMINATION:

Description/Explanation: Based on the categories checked in A-D, it is the recommendation of the department that the instructor's grading methods fall within the following departmental guidelines; however, the final method of grading is still at the discretion of the individual instructor. The instructor's syllabus must reflect the criteria by which the student's grade has been determined. (A minimum of five (5) grades must be recorded on the final roster.)

If several methods to measure student achievement are used, indicate here the approximate weight or percentage each has in determining student final grades.
