COURSE DESCRIPTION:

This course is taken concurrently with Health 15 and provides practicing skills in the field and/or work site. A requirement of 6 hours per week is needed to fulfill the requirements of this course. This may mean at least 30 encounters or 50 hours of lab time must be documented. Students must submit necessary paper work to document time spent practicing their interpreting skills, and must turn in documentation on a weekly basis.

PREREQUISITES: Student must pass Health 14 with a grade of C or higher, and be enrolled in Health 15 class concurrently. To take Health 16, student must have completed Health 14 successfully within 2 years prior enrollment in Health 15 and 16.

COURSE OBJECTIVES:

- Discuss and demonstrate understanding of the interpreter roles and the scope of practice relative to other health care professionals in the assigned agency
- Discuss and demonstrate competence in elements of workplace, culture and professionalism e.g. time management, reporting and accountability, maintaining personal and professional boundaries
- Perform field assignments of Interpreter competencies in a fieldwork setting (observe conduct pre/post sessions, describe roles and scope of practice of health team members, utilize good communication skills)
- Apply conflict management skills in the work setting
- Practice cross-cultural communication skills in the health care setting and with colleagues/patients
- Conduct significant interpreting encounters in the health care setting/develop public speaking skills via class presentations

STUDENT LEARNING OUTCOMES:

Upon completion of this course, students will be able to: 1) fully understand the roles and responsibilities of a health care interpreter with application to actual situations, 2) being able to foster relationships with different healthcare professionals, 3) be sensitive and understanding

METHODOLOGY: Students will be expected to be prepared to interact in class as individuals and as groups. Students will be expected to turn in proper documentation for field work experience and do assigned homework for class. Healthcare Interpreting Case Presentations are a vital factor in Health 16.

ACCOMODATIONS FOR STUDENTS WITH DISABILITIES:

If you have a verified need for an academic accommodation or materials in alternate media (i.e., Braille, large print, electronic text, etc.) per the American's with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act, please contact your instructor as soon as possible.

DROP POLICY:

18-week courses have a drop deadline in the 9th week. Short-term classes have a drop deadline of 4 1/2 weeks. However, the instructor may drop you at any time after 1) Not attending mandatory orientation, 2) The first quiz, and/or 3) Having three (3) consecutive unexcused absences or any absences in the first week of class.

REMOVAL FROM CLASS:

Instructor(s) shall be in charge of their classes and students are under obligation to respect the authority of each instructor. Reedley College's Student Code of Conduct Policy (Based Policy 5520 and Educational Code 76032) authorizes an instructor to remove a disruptive student from his or her class for the day of removal and the next class meeting. The instructor shall immediately report the removal to the Vice-President of Student Services. During the period of removal, a student shall not be returned to the class from which he or she was removed without the concurrence of the instructor of the class. Students are responsible for their conduct. Failure to adhere to the college's standards will result in disciplinary action. The college reserves the right to exclude at any time a student who violates student conduct standards and/or in not taking proper advantage of the opportunities offered. Reedley College reserves the right to exclude any time a student who, in the judgment of the administration, is not taking proper advantage of the opportunities offered.

ACADEMIC DISHONESTY - CHEATING AND PLAGIARISM:

(Please see the Reedley College catalog for school policies)

“Cheating is the actual or attempted practice of fraudulent or deceptive acts for the purpose of improving one’s grade or obtaining course credit; such acts also include assisting another student to do so. Typically, such acts occur in relation to examinations. However, it is the intent of this definition that the term ‘cheating’ not be limited to examination situations only, but that it include any and all actions by a student that are intended to gain an unearned academic advantage by fraudulent or deceptive means. Plagiarism is a specific form of cheating that consists of the misuse of the published and/or unpublished works of others by misrepresenting the material (i.e., their intellectual property) so used as one’s own work.” Penalties for cheating and plagiarism range from 0 to F on a particular assignment, through an F for the course.

INTERNSHIP OBJECTIVES

- **SKILL DEVELOPMENT** - Apply what you have learned in the classroom. Learn to work as part of an organization/team. Learn and improve specific skills (interpretation, writing, verbal, and computers).
- **BROADER KNOWLEDGE** - Gain self-confidence and interpersonal relationships not offered in regular classroom situations. Develop a better understanding of the flow of medical care and working as an interpreter.
- **PERSONAL DEVELOPMENT** - Develop values, ethics, assertiveness and decision-making abilities. Know when not to take an assignment.

FIELD WORK EXPERIENCE REQUIREMENTS:

The student is required to provide 30 or more significant interpretation encounters within one semester in his/her assigned agency. In addition he/she is required to complete classroom activities/consultation with the instructor/coach. Significant interpretation encounters involve providing medical related interpretations in person at a minimum of 10-15 minutes per encounter.

EVALUATE THE SUCCESS OF THE EXPERIENCE:

- Site supervisor does evaluation of student. The site supervisor determines if the student met the objectives and also the quality of the intern’s work. Assessment of work attitude is important along with suggestions for improvement.
- Self-evaluation of student. It is important for students to reflect on the learning experience in a structured way and be able to identify areas of strengths and opportunities for improvements.
- The INSTRUCTOR does the final Evaluation of student. The final evaluation and awarding of credit to the student will be based on the contacts the instructor has had during internship and on the final evaluation by the supervisor and the student. The student will keep a journal and document all health care related interpretation encounters as proof of internship. Instructor will meet with each student’s assigned site supervisor for a performance review.

GUIDELINES: At the end of the internship, each student’s file needs signatures for each evaluation form from the: 1) Site Supervisor, 2) Student, and 3) Instructor
