Geography 6: World Regional Geography

Reedley College

Instructor: Edward A. Krause

Other Educational Resources (OER) support "Text" website is:

World Regional Geography: People, Places and Globalization

Found at: <http://open.umn.edu/opentextbooks/BookDetail.aspx?bookId=78>

Course Description: This course examines all major regions of the world: a study of the physical settings, population patterns, natural resources, and economic and political status of the world's realms.

Course Objective: The course objective is for the student to develop an understanding and good comprehension of the key geographical concepts enumerated in the course description.

Attendance Policy: According to the stated policy of Reedley College. Excessive absences over the college policy may affect your knowledge of lecture content and/or your quiz grade which could ultimately affect the final course grade. Roll will be taken every class meeting.

Last day to drop this class and receive a grade of "W" is March 8, 2019.

My campus voice mail number is 638-3641, Box # 6637.

E-Mail Address: edward.krause@sccd.edu

Students with any special learning needs should advise me early in the semester so I may make any classroom adjustments that can be of assistance to the student.

With this statement on my course syllabus, I am referring each of my students in need of academic support to tutorial services. Referral reason: mastering the content, study skills, and basic skills of this course is aided by the use of trained peer tutors.

Be sure to turn off all cell phones or any other device that you carry that ring or make noise before entering the classroom. Disruption of class by these items is never acceptable.

Grading:

There will be six equally weighted examinations, the final exam is one of the six. The lowest exam grade score will be dropped. This gives you five exam grades averaged with one other grade that will constitute your course grade. If you miss an exam, that is the grade that will be dropped. **THERE WILL BE NO MAKE UP EXAMS.**

One letter grade will be assigned to **the cumulative results of quizzes** which will be given randomly (although you should expect to have them at least weekly). Quizzes are usually given at the beginning of the class period (BUT NOT ALWAYS) being punctual to class is to your benefit.

One written abstract will be due from each student (more details will follow) the score on this paper will be added to (or if you do not complete it, subtracted from) your cumulative quiz point total.

There will be no possibilities for “Extra Credit “of any type. The exception to this is if something is offered as extra credit to all students in the class by me.
