You will be encouraged to share your own reactions to course materials, questions, and ideas, as these are what will enable you, your classmates, and your instructor to gain the most from our time together. Reading the assigned materials prior to class is crucial. Being able to critically analyze what you have read and discussed, as well as make connections to real world settings when applicable, are ultimate goals.

Assignment Requirements:

Assignments will vary daily/weekly. This may include written work, individual and group activities, article reports, reading or assignments. Students are expected to attend class prepared to discuss/present assignments. Remember that your performance in class is directly related to how much time and effort you put into the class material. For every hour in class, expect you will estimate spending one to two hours studying outside of class. Before completing assignments, please keep in mind the following:

- All assignments are to be typed unless otherwise specified by the instructor.
- All assignments must be neat and clearly labeled with student name, date, title of the assignment, and class day/time.

For this reason, students are allowed to use 3 Late Assignment Passes during the course of the semester, penalty free. If you know you will be unable to turn in your work by the due date, you must contact the instructor immediately so we can work out a reasonable due date. After using your three late assignments, I will no longer accept late work. Quizzes will not be accepted late!

Written Work Expectations:

Proper writing is a basic expectation when someone has earned a college degree and writing quality does matter as a college student and in the profession as an educator. If you intend to work with children and families, there will be many times when you need to communicate information that is crucial, including rationale for continued funding for your job and the children and families you serve. It is valuable to you if you are able to communicate through writing and that you used consistent writing mechanics.

All assignments completed in this class are expected to have college level quality writing which includes proper use of grammar, usage, mechanics, style, as well as proper APA citing style where applicable. All outside classroom assignments are to be typed. Assignments turned in handwritten will result in a score of zero.

- American Psychological Association (APA)

- In this course you will be using American Psychological Association (APA) formatting for all assignments (unless otherwise specified). If you are unfamiliar with this type of formatting, I strongly suggest that you utilize campus resources to ensure academic success. Please see the “Campus Resources” section towards the end of the syllabus for additional information.
