II. COURSE OUTCOMES:

(Specify the learning skills the student demonstrates through completing the course and link critical thinking skills to specific course content and objectives.)

Upon completion of this course, students will be able to:

- I. Integrate tennis into a habitual, life-long physical activity.
- II. Apply the basic rules of both singles and doubles play.
- III. Employ the basic terminology and abide by the rules of tennis etiquette.
- IV. Differentiate between effective and ineffective techniques and shots.
- V. Select and utilize effective strategies for both singles and doubles matches.

III. COURSE OBJECTIVES:

(Specify major objectives in terms of the observable knowledge and/or skills to be attained.)

In the process of completing this course, students will:

- I. Perform the fundamental skills of the game, in particular the forehand, backhand, volley, serve, overhead and lob.
- II. Learn the rules and etiquette of tennis.
- III. Describe the four major professional tournaments that comprise the Grand Slam, and discuss the appropriate strategies for each surface.
- IV. Practice both singles and doubles play.
- V. Understand and utilize proper scoring systems, including traditional, no-ad scoring, and tiebreakers.
- VI. Evaluate the strengths and weaknesses of other participants.

IV. COURSE OUTLINE:

Lab Content:

A. Groundstroke—Forehand

- 1. Grip
- 2. Body positioning, footwork, racquet path
- 3. Crosscourt vs. down the line
- 4. Drills and practice

- B. Groundstroke-Backhand
 - 1. Grip; Two Handed
- 2. Body Position, footwork, racquet path
- 3. Crosscourt vs. down the line
- 4. Drills and practice

C. Volley

- 1. Ready Positioning
- 2. Footwork, Swing, and follow through
- 3. Drills and practice

D. Serve

- 1. The toss
- 2. Develop a routine
- 3. Body position, footwork, and racquet path
- 4. Grip
- 5. Drills and practice
- 6. Types of serves: Flat, Topspin, Slice, American Twist

E. Return of Serve

- 1. Ready position and routine
- 2. Cues

F. Lob

- 1. Technique, strategy and practice
- 2. Offensive vs. Defensive

G. Overhead

- 1. Body Positioning, Footwork, and racquet path
- 2. Tracking ball
- 3. Offensive vs. Defensive
- H. Tiebreakers
- I. Drop Shot
- J. Singles Strategy
- K. Double Strategy
- a. Mixed Doubles
- L. Class Tournament

V. APPROPRIATE READINGS

Reading assignments may include but are not limited to the following:

- I. Sample Text Title:
 - 1. Recommended Matsuzaki Tennis Fundamentals, Human Kinetics, 2004,
- II. Other Readings
 - 1. Recommended Instructor prepared handouts.

X Global or international materials or concepts are appropriately included in this course
 Multicultural materials and concepts are appropriately included in this course

If either line is checked, write a paragraph indicating specifically how global/international and/or multicultural materials and concepts relate to content outline and/or readings.

The four major professional tennis tournaments (which also comprise the "Grand Slam") consist of three tournaments held outside of the United States. Those tournaments are as follows: The French Open France), the Austrailian Open (Australia), and Wimbledon (England). Also, discussed are the surfaces used in these tournaments and their differences. For example, The French Open is played on clay, which is more common in Europe and South America than in the United States (which consists primarily of hard or asphalt courts). Also, the unique surface of Wimbledon, grass is also discussed. The differences in surfaces are analyzed.

VI. METHODS TO MEASURE STUDENT ACHIEVEMENT AND DETERMINE GRADES:

Students in this course will be graded in at least one of the following four categories. Please check those appropriate. A degree applicable course must have a minimum of one response in category A, B, or C.

A. Writing

Check either 1 or 2 below

1. Substantial writing assignments are required. Check the appropriate boxes below and provide a written description in the space provided.

2. Substantial writing assignments are NOT required. If this box is checked leave this section blank. For degree applicable courses you must complete category B and/or C.			
a) essay exam(s)	d) written homework		
b) term or other paper(s)	e) reading reports		
c) laboratory report(s)	f) other (specify)		

B. Problem Solving Computational or non-computational problem-solving demonstrations, including:				
a) exam(s)	d) laboratory reports			
b) quizzes	e) field work			
c) homework problems	f) other (specify):			

Required assignments may include but are not limited to the following:

C. Skill demonstrations, including:				
X	a) class performance(s)	X	c) performance exams(s)	
	b) field work		d) other (specify)	

Required assignments may include but are not limited to the following:

- 1. Serve, volley, and groundstrokes pre and post test.
- 2. Rules and scoring test
- 3. Strategy test
- 4. Techniques Test
- 5. Class Tournament

D. Objective examinations including:				
X	a) multiple choice	X	d) completion	
X	b) true/false	X	e) other (specify):	
X	c) matching items			

COURSE GRADE DETERMINATION:

Description/Explanation: Based on the categories checked in A-D, it is the recommendation of the department that the instructor's grading methods fall within the following departmental guidelines; however, the final method of grading is still at the discretion of the individual instructor. The instructor's syllabus must reflect the criteria by which the student's grade has been determined. (A minimum of five (5) grades must be recorded on the final roster.)

If several methods to measure student achievement are used, indicate here the approximate weight or percentage each has in determining student final grades.

50% Participation 25% Skills Tests 25% Written Tests

VII. EDUCATIONAL MATERIALS

For degree applicable courses, the adopted texts, as listed in the college bookstore, or instructor-prepared materials have been certified to contain college-level materials.

Textbook Reference materials Reference materials Instructor-prepared materials Audio-visual materials X Indicate Method of evaluation: Used readability formulae (grade level 10 or higher) Text is used in a college-level course Used grading provided by publisher Other: (please explain; relate to Skills Levels) Computation Level (Eligible for MATH 101 level or higher where applicable) Content Breadth of ideas covered clearly meets college-level learning objectives of this course Presentation of content and/or exercises/projects: Requires a variety of problem-solving strategies including inductive and deductive reasoning.
