## (12) Catalog Description:

This course, Automotive Technology-11, in concert with Automotive Technology -10, will prepare the student with the knowledge and skills to perform diagnosis and repair of various automotive components and enter the automotive service industry at the advanced apprentice level. Subjects include: safety, ethics, regulations, brakes, suspension and steering, differentials, axles, engine electrical and electronic systems, engine performance and emissions, air conditioning and heating, and Bureau of Automotive Repair (BAR) emissions (smog), brake and lamp license preparation. Most tools and equipment are provided, however the student is expected to furnish Digital Volt Ohm Meter (DVOM), Vacuum gauge, personal safety items, and a materials fee.

#### II. COURSE OUTCOMES:

(Specify the learning skills the student demonstrates through completing the course and link critical thinking skills to specific course content and objectives.)

Upon completion of this course, students will be able to:

- I. identify the industry standards for the Automotive Repair Industry.
- II. work safely in an automotive repair environment.
- III. correctly choose and utilize hand and power tools.
- IV. diagnose and repair the engine fuel delivery and emissions systems.
- V. diagnose and repair the engine electrical and electronics systems.
- VI. diagnose and repair brake systems.
- VII. diagnose and repair suspension and steering systems.
- VIII. diagnose and repair air conditioning and heating systems.
- IX. diagnose and repair the differential and axle systems.
- X. know the application process for the California State Emissions, Brake, and Lamp Licenses.

## III. COURSE OBJECTIVES:

# (Specify major objectives in terms of the observable knowledge and/or skills to be attained.)

In the process of completing this course, students will:

- I. identify the industry standards for the Automotive Repair Industry.
- II. identify shop safety and hazardous materials regulations and standards.
- III. perform the correct use of hand and power tool utilization.
- IV. comprehend and critically evaluate the engine fuel delivery and emissions systems.
- V. comprehend and critically evaluate the electrical and electronics systems.
- VI. comprehend and critically evaluate brake systems.
- VII. comprehend and critically evaluate the suspension and steering systems.
- VIII. comprehend and critically evaluate the air conditioning and heating systems.

- IX. comprehend and critically evaluate the differential and axle systems.
- X. identify and comprehend the rules and regulations regarding the California State Emissions, Brake, and Lamp Licenses.

## IV. COURSE OUTLINE:

## **Lecture Content:**

- A. Automotive Industry Standards.
- B. Safety and Hazardous Waste Regulations and Standards.
- C. Hand and Power identification and operation.
- D. Engine Fuel Requirements and Delivery.
- E. Engine Emissions and California Automotive Emissions Regulations and Standards.
- F. Automotive and Light Duty Truck Electrical and Electronics Systems.
- G. Automotive and Light Duty Truck Brake Systems and California Automotive Brake Regulations and Standards.
- H. Automotive and Light Duty Truck Suspension and Steering Systems.
- I. Automotive and Light Duty Truck Air Conditioning and Heating Systems.
- J. Automotive and Light Duty Truck Differential and Axle Systems.
- K. California State Emissions, Brake, and Lamp Application and Requirement Updates.

#### **Lab Content:**

Lab includes lecture and hands-on of the subjects listed below:

- 1. Safe utilization of tools and equipment.
- 2. Safe vehicle repair.
- 3. Brake system diagnosis and repair.
- 4. Steering, suspension, and alignment diagnosis and repair.
- 5. Engine performance and emissions diagnosis and repair.
- 6. Electronic systems diagnosis and repair.
- 7. HVAC diagnosis and repair.

#### V. APPROPRIATE READINGS

## Reading assignments may include but are not limited to the following:

- I. Sample Text Title:
  - 1. Recommended James Halderman *Diagnosis and Troubleshooting of Automotive Electrical, Electronics, and Computer Systems*, ed. 6th Prentice Hall, Upper Saddle River, New Jersey, 2012,
  - 2. Recommended Don Knowles Automotive Suspension and Steering, ed. 5th Delmar, Independence, KY, 2011,
  - 3. Recommended Cliff Owen AUTOMOTIVE BRAKE SYSTEMS, ed. 5th Delmar, Independence, KY, 2011,
  - 4. Recommended James Halderman and James Linder *Fuel Emissions Control Systems*, ed. 3rd Prentice Hall, Upper Saddle River, New Jersey, 2011,
  - Recommended Tom Birch AUTOMOTIVE HEATING AND AIR CONDITIONING, ed. 5th Pearson, Upper Saddle River, New Jersey, 2010,

II.	Other	Readir	128

 Global or international materials or concepts are appropriately included in this cours	se
 Multicultural materials and concepts are appropriately included in this course	

If either line is checked, write a paragraph indicating specifically how global/international and/or multicultural materials and concepts relate to content outline and/or readings.

# VI. METHODS TO MEASURE STUDENT ACHIEVEMENT AND DETERMINE GRADES:

Students in this course will be graded in at least one of the following four categories. Please check those appropriate. A degree applicable course must have a minimum of one response in category A, B, or C.

A. V	A. Writing					
	Check either 1 or 2 below					
X	1. Substantial writing assignments are required. Check the appropriate boxes below and provide a written description in the					
space provided.						
	2. Substantial writing assignments are NOT required. If this box is checked leave this section blank. For degree applicable courses you must complete category B and/or C.					
	a) essay exam(s)		d) written homework			
	b) term or other paper(s)		e) reading reports			
	c) laboratory report(s)	X	f) other (specify) Subject area technical reports and repair orders			

Required assignments may include but are not limited to the following:

Employment applications and resume

Technical reports

Repair orders

X	a) exam(s)	X	g demonstrations, including: d) laboratory reports	
X	b) quizzes	111	e) field work	
	c) homework problems	X	f) other (specify):	
c) nonework proofens			Ohm's law measurement and calculation	
	ired assignments may include but are no	t limite	d to the following:	
	's law urement and calculations			
	kill demonstrations, including:			
X	a) class performance(s)	X	c) performance exams(s)	
b) field work d) other (specify)				
Rogu	ired assignments may include but are no	t limita	, , , , , , , , , , , , , , , , , , , ,	
Engir	ne manifold pressure (vacuum) diagnosis,	electric	cal charging diagnosis, and starter/battery voltage d	liagnosis
D. C	<b>Dbjective</b> examinations including:			
X	a) multiple choice		d) completion	
	b) true/false		e) other (specify):	
X	c) matching items

2010,

Comments:					
This course requires special or additional library materials (list attached).  This course requires special facilities: Automotive Repair Facility (Lab)					
Attached Files:					
BASIC SKILLS ADVISORIES PAGE The skills listed are those needed for eligibility for English 125, 126, and Math 201. These skills are listed as the outcomes from English 252, 262, and Math 250. In the right hand column, list at least three major basic skills needed at the beginning of the target course and check off the corresponding basic skills listed at the left.					
Check the appropriate spaces.					
Eligibility for Math 201 is advisory for the target course.  Eligibility for English 126 is advisory for the target course.					
Eligibility for English 125 is advisory for the target course.					
If the reviewers determine that an advisory or advisories in Basic Skills are all that are necessary for success in the target course, stop here, provide the required signatures, and forward this form to the department chair, the appropriate associate dean, and the curriculum committee.					
REQUISITES					
Prerequisite AUTOT 9 Automotive Essentials					
1.Introduction to industrial safety. 2.Introduction to tool safety. 3.Introduction to equipment safety. 4.Understanding vehicle repair safety.					
ESTABLISHING PREREQUISITES OR COREQUISITES					
Every prerequisite or corequisite requires content review plus justification of at least one of the seven kinds below. Prerequisite courses in communication and math outside of their disciplines require justification through statistical evidence. Kinds of justification that may establish a prerequisite are listed below.					
Check one of the following that apply. Documentation may be attached.					
Significant statistical evidence indicates that the absence of the prerequisite course is related to unsatisfactory performance in the target course.  Justification: Indicate how this is so.  X_The health or safety of the students in this course requires the prerequisite.  Justification: Indicate how this is so.  The prerequisite course is part of a sequence of courses within or across a discipline.  The prerequisite is required in order for the course to be accepted for transfer to the UC or CSU systems.  Justification: Indicate how this is so.  The prerequisite/corequisite is required by law or government regulations.  Explain or cite regulation numbers:  The safety or equipment operation skills learned in the prerequisite course are required for the successful or safe completion of					
this course.  Justification: Indicate how this is so. The safety or equipment operation skills learned in the prerequisite course are required for the successful or safe completion of this course.  Justification: Indicate how this is so.  Three CSU/UC campuses require an equivalent prerequisite or corequisite for a course equivalent to the target course:					

# Prerequisite -- ENGL 260 BASIC READING

Justification:

- 1.Provides the basic skills in reading comprehension.
- 2.Provides the skills in basic vocabulary development. 3.Provides the basic skills in comprehension,

determining main ideas, and the importance of details.

1. Automotive instructions need to be correctly followed. 2. Automotive specifications need to be located and correctly followed. 3. Automotive system diagnoses must to understood and evaluated. 4.An automotive repair order must be correctly written and understood.

# ESTABLISHING PREREQUISITES OR COREQUISITES

Every prerequisite or corequisite requires content review plus justification of at least one of the seven kinds below. Prerequisite courses in communication and math outside of their disciplines require justification through statistical evidence. Kinds of justification that may establish a prerequisite are listed below.

Check one of the following that apply. Documentation may be attached.

X\_Significant statistical evidence indicates that the absence of the prerequisite course is related to unsatisfactory performance in the target course.

Justification: Indicate how this is so.

The health or safety of the students in this course requires the prerequisite.

Justification: Indicate how this is so.

The prerequisite course is part of a sequence of courses within or across a discipline.

The prerequisite is required in order for the course to be accepted for transfer to the UC or CSU systems.

Justification: Indicate how this is so.

The prerequisite/corequisite is required by law or government regulations.

Explain or cite regulation numbers:

The safety or equipment operation skills learned in the prerequisite course are required for the successful or safe completion of this course.

Justification: Indicate how this is so.

The safety or equipment operation skills learned in the prerequisite course are required for the successful or safe completion of this course.

Justification: Indicate how this is so.

Three CSU/UC campuses require an equivalent prerequisite or corequisite for a course equivalent to the target course:

#### Justification:

## **Prerequisite -- MATH 250 COLLEGE ARITHMETIC**

1.Arithmetic operations on whole numbers, fractions, and decimals. 2.Word problems and applications of arithmetic using ratios, proportions, and percents.

1.Understanding and calculation of final drive ratios. 2.Understanding and use of the Metric measurement system. 3.Understanding and use of the English standard measurement system. 4.Understanding and use of linear measurement. 5.Understanding and use of automotive measurement tools. 6.Electrical measurement.

# ESTABLISHING PREREQUISITES OR COREQUISITES

Every prerequisite or corequisite requires content review plus justification of at least one of the seven kinds below. Prerequisite courses in communication and math outside of their disciplines require justification through statistical evidence. Kinds of justification that may establish a prerequisite are listed below.

Check one of the following that apply. Documentation may be attached.

X\_Significant statistical evidence indicates that the absence of the prerequisite course is related to unsatisfactory performance in the target course.

Justification: Indicate how this is so.

The health or safety of the students in this course requires the prerequisite.

Justification: Indicate how this is so.

\_The prerequisite course is part of a sequence of courses within or across a discipline.

The prerequisite is required in order for the course to be accepted for transfer to the UC or CSU systems.

Justification: Indicate how this is so.

\_\_The prerequisite/corequisite is required by law or government regulations.

Explain or cite regulation numbers:

The safety or equipment operation skills learned in the prerequisite course are required for the successful or safe completion of this course.

Justification: Indicate how this is so.

\_\_\_\_The safety or equipment operation skills learned in the prerequisite course are required for the successful or safe completion of this course.

Justification: Indicate how this is so.

Three CSU/UC campuses require an equivalent prerequisite or corequisite for a course equivalent to the target course:

## Justification:

# JUSTIFICATION OF LIMITATION ON ENROLLMENT

Enrollment in courses or blocks of courses may be limited based on performance, honors, or other performance based criteria. Be mindful of the disproportionate impact the limitation will have on specific groups of students. It is important to determine if the limitation will disproportionately keep under-represented students from enrolling in the course or block of courses.

Describe the reasons for limiting the enrollment.

Course Designator: AUTOT 11

Course Title(s): Automotive Technician Program	
Rationale for Limiting Enrollment:
