### II. COURSE OUTCOMES:

(Specify the learning skills the student demonstrates through completing the course and link critical thinking skills to specific course content and objectives.)

Upon completion of this course, students will be able to:

- I. Recognize the various types of tools, materials, and processes as they relate to manufacturing technology.
- II. Students will be able to describe basic functions within a manufactuaring career pathway of their choice.

#### III. COURSE OBJECTIVES:

(Specify major objectives in terms of the observable knowledge and/or skills to be attained.)

In the process of completing this course, students will:

- I. Practice using appropriate tools, equipment and materials used in manufacturing.
- II. Practice the safe use of selected shop equipment
- III. Make clear, knowledgeable choices when choosing career opportunities.

# IV. COURSE OUTLINE:

### **Lecture Content:**

- A. Shop Safety
- 1. Evaluate dangerous situations
- 2. Eye protection
- 3. Ear protection
- 4. Skin protection
- 5. Dangers of harmful vapors
- B. Hand tools
- 1. Hammers and punches
- 2. Hand cutting devices
- 3. Identification of basic hand tools

- C. Power tool usage
- 1. Drilling
- 2. Tapping
- 3. Grinders
- 4. Saw basics
- D. Precision measurment
- 1. Micrometer
- 2. Caliper
- 3. Depth measuring devises
- 4. Feeler gauges
- 5. Torque methods
- E. Program familiarity
- 1. Maintenance Mechanic
- 2. Machinist
- 3. Welder
- F. Mechanical Concepts
- 1. Five basic machine types
- 2. Energy Uses
- 3. Visual/spatial relationships
- G. Student success tools
- Scheduling time
- 2. Study habits
- 3. Being prepared
- 4. Practice
- H. Field trip

# **Lab Content:**

- A. Shop Safety
- 1. Evaluate dangerous situations
- 2. Eye protection
- 3. Ear protection
- 4. Skin protection
- 5. Dangers of harmful vapors
- B. Hand tools
- 1. Hammers and punches
- 2. Hand cutting devices
- 3. Identification of basic hand tools
- C. Power tool usage
- 1. Drilling
- 2. Tapping
- 3. Grinders
- 4. Saw basics
- D. Precision measurment
- 1. Micrometer
- 2. Caliper
- 3. Depth measuring devises
- 4. Feeler gauges
- 5. Torque methods
- E. Program familiarity
- 1. Maintenance Mechanic
- 2. Machinist
- 3. Welder
- F. Mechanical Concepts
- 1. Five basic machine types

- 2. Energy Uses
- 3. Visual/spatial relationships
- G. Student success tools
- 1. Scheduling time
- 2. Study habits
- 3. Being prepared
- 4. Practice

### V. APPROPRIATE READINGS

## Reading assignments may include but are not limited to the following:

- I. Sample Text Title:
  - 1. Recommended Hoffman, P, J Precision Machining technology, Delmar, Cengage Learning, 2012,
  - 2. Recommended Oberg, E Machinery's Handbook, ed. 29 Industrial Press, 2012,
- II. Other Readings

| <br>Global or international materials or concepts are appropriately included in this course |
|---|
| <br>Multicultural materials and concepts are appropriately included in this course          |

If either line is checked, write a paragraph indicating specifically how global/international and/or multicultural materials and concepts relate to content outline and/or readings.

#### VI. METHODS TO MEASURE STUDENT ACHIEVEMENT AND DETERMINE GRADES:

Students in this course will be graded in at least one of the following four categories. Please check those appropriate. A degree applicable course must have a minimum of one response in category A, B, or C.

|     | A. Writing  |   |  |  |  |  |  |
|-----|---|---|--|--|--|--|--|
|     | Check either 1 or 2 below   |   |  |  |  |  |  |
|     | 1. Substantial writing assignments are reg<br>space provided.   | uired. Check the appropriate boxes below and provide a written description in the |  |  |  |  |  |
| _   | 1 1   |   |  |  |  |  |  |
| l x | 2. Substantial writing assignments are NOT required. If this box is checked leave this section blank. For degree applicable |   |  |  |  |  |  |
|     | courses you must complete category B and  | t∕or C.   |  |  |  |  |  |
|     | a) essay exam(s)  | d) written homework   |  |  |  |  |  |
|     | b) term or other paper(s)   | e) reading reports  |  |  |  |  |  |
|     | c) laboratory report(s)   | f) other (specify)  |  |  |  |  |  |

## Required assignments may include but are not limited to the following:

| B. Problem Solving Computational or non-computational problem-solving demonstrations, including: |                      |   |                       |  |
|--|----------------------|---|-----------------------|--|
| X  | a) exam(s)           |   | d) laboratory reports |  |
| X  | b) quizzes           | X | e) field work         |  |
| X  | c) homework problems |   | f) other (specify):   |  |

## Required assignments may include but are not limited to the following:

- 1. Specific skill building task oriented projects.
- 2. Completion of projects requiring the combining of several problem-solving tasks.
- 3. Converting a fractional measurement to decimal and selecting a proper sized drill bit to drill and tap a hole.

| C. Skill demonstrations, including: |                         |   |                         |  |
|-------------------------------------|-------------------------|---|-------------------------|--|
| X                                   | a) class performance(s) | X | c) performance exams(s) |  |
|                                     | b) field work           |   | d) other (specify)      |  |

## Required assignments may include but are not limited to the following:

- 1. Satisfactory completion of assigned skill building tasks.
- 2. Demonstration of the ability to properly use tools found in various technology fields.
- 3. Satisfactory drill and tap a hole

| D. Objective examinations including: |                    |   |                     |  |  |
|--------------------------------------|--------------------|---|---------------------|--|--|
| X                                    | a) multiple choice | X | d) completion       |  |  |
| X                                    | b) true/false      |   | e) other (specify): |  |  |
| X                                    | c) matching items  |   |                     |  |  |

### **COURSE GRADE DETERMINATION:**

Description/explanation: Based on the categories checked in A-D, it is the recommendation of the department that the instructor's grading methods fall within the following departmental guidelines; however, the final method of grading is still at the discretion of the individual instructor. The instructor's syllabus must reflect the criteria by which the student's grade has been determined. (A minimum of five (5) grades must be recorded on the final roster.)

If several methods to measure student achievement are used, indicate here the approximate weight or percentage each has in determining student final grades.

Does Course Require Secial Facilities? Yes:

| JUSTIFICATION OF LIN  | MITATION ON ENROLLMENT  |
| Enrollment in courses or blocks of courses may be limited base  | ed on performance, honors, or other performance based criteria. Be  |

Enrollment in courses or blocks of courses may be limited based on performance, honors, or other performance based criteria. Be mindful of the disproportionate impact the limitation will have on specific groups of students. It is important to determine if the limitation will disproportionately keep under-represented students from enrolling in the course or block of courses.

Describe the reasons for limiting the enrollment.
