

PROGRAM OF STUDY

Administration of Justice Associate in Science for Transfer Degree

The Associate in Science Degree in Criminology prepares students for transfer into a four-year degree at any of the California State Universities campuses. The criminology program is the study of the causes, consequences and control of crime and is focused on either the study of Law Enforcement or Corrections. While the program's curriculum allows for the development of depth in one of the subject's substantive subsystems (i.e. law enforcement, juvenile, courts, investigations, corrections or probation and parole), our goal is to familiarize students with activities which focus on their area of choice (Law Enforcement or Corrections).

Successful completion of the Associates in Science Degree in Criminology (Associate in Science Degree for Transfer) guarantees the student acceptance to a California State University (but does not guarantee acceptance to a particular campus or major) to pursue a baccalaureate degree, in preparation to pursue a career in the field of Law Enforcement, Corrections, or any related field (i.e. Criminal Research, Law, Forensic Criminology, Public Safety or Private/Industrial Security).

To obtain the Associate in Science Degree in Administration of Justice for Transfer, students must complete the following:

- Completion of the following major requirements with grades of 2.0 or better
- A minimum of 60 CSU-transferable units with a grade point average (GPA) of 2.0 or better.
- Certified completion of either the California State University General Education Breadth pattern (CSU GE), or the Intersegmental General Education Transfer Curriculum (IGETC-CSU) pattern general education requirements.

Required core courses - 6 units

		Units
CRIM1	Introduction to Criminology	3
CRIM6	Criminal Law	3
