COURSE REQUIREMENTS

An examination will be given at the end of every five chapters or so. There will be two exams and one final exam given over the course of the semester. Each test will consist of multiple choice questions and one to two essay questions. These exams will be worth one hundred points each. There will also be four quizzes which will be added to your final grade each worth twenty-five points.

In the event a student misses an exam, provisions must be made with the instructor prior to the next class meeting to make-up the missed exam. It will be the responsibility of the student to arrange for the make-up. Failure to do so will result in the student receiving a zero for that particular exam.

Finally, attendance is crucial. A failure to attend on a regular basis will have an impact on your final grade.

COURSE OBJECTIVES

After completing this course you as the student will be able to describe the development of political, economic and cultural systems fundamental to Western Civilization from the beginning of the Renaissance to the present. You will also be able to analyze the interplay and exchange of information between the different European and non-European nations leading to the rise of Western power. Added to this, you will be able to evaluate the ideas and intellectual trends which influenced the development of western culture.
