**SUMMER 2002  
GENERAL WORK EXPERIENCE  
EH 19V  
(Schedule # 72734)**

**COURSE DESCRIPTION**

- **Prerequisites:** Basic skills advisory – None
- **Units:** Variable units, 1-3 per semester
- **Catalog Description:** Supervised employment related to student's major. Maximum of 3 units per semester, 6 total units. Requires concurrent enrollment in two classes – work experience class, plus one additional class.  
NOTE: Each unit for paid employment requires 75 hours or 60 unpaid/volunteer hours.

**COURSE MATERIALS OF INSTRUCTION**

- **Textbook:** None required.
- **Materials:** Binder or folder to keep contract form, timesheet, and other documents organized.

**ATTENDANCE REQUIREMENT**

- **Initial Orientation:** This meeting will not be held for the summer class, but it will be the student's responsibility to have the enclosed contract form signed by his/her employer and return to the instructor by **June 24, 2002**.

**METHOD FOR MEASURING STUDENT ADVANCEMENT & DETERMINING GRADES**

- A minimum number of one on-site visitation is required during the summer session. Units cannot be granted if the visitation is not completed.
- Once the student approaches/completes 225 work hours or the number of hours which satisfies the units of registration, he/she will set up an appointment for the instructor to meet with the employer to complete the contract evaluation process. Students should not wait until the end of the session, as this will be a very busy time with final examinations which may interfere with the work site visitation. Grades are determined by the points awarded by the employer for each of the learning objectives and general work habits (rating scale 1-4 respectively).
