

Reedley College

Math 101

Summer '12 Syllabus

Course: Math 101 Elementary Algebra

Schedule number: 79749

Instructor: Ron Reimer

E-mail: ron.reimer@reedleycollege.edu

Phone: (559)638-3641 ext. 3355

Office Hours: 9 to 10 am TWTh

Text: Woodbury, Elementary & Intermediate Algebra Third Edition

Website: <http://www.mymathlab.com>

Course ID: reimer24998

Meeting times: MTWTh, 8:00 – 11:35 AM, 6/18/12 – 7/26/12

Important dates:

July 4	Wednesday	Independence Day, No Class
July 6	Friday	Last day to drop a 6 week term class
July 26	Thursday	Final Exam 8:00 AM – 11:35 AM

Course Description: This course will deal with many algebraic concepts, including equations and inequalities in two variables, rational exponents and roots, quadratic functions, exponential and logarithmic functions, and conic sections.

Course Objectives

- A. recognize the real number system, its subsets and how to perform operations on numbers from these subsets.
- B. simplify algebraic expressions and solve linear equations and inequalities
- C. graph linear equations in two variables and solve systems of linear equations.
- D. simplify expressions using the properties of exponents and perform operations with polynomials.
- E. factor algebraic expressions and solve equations of degree greater than one.
- F. perform arithmetic operations on rational expressions and solve equations containing rational expressions.

Attendance: In order to maintain continuity of subject matter regular attendance is imperative in any academic course. You are expected to attend all class sessions, arrive on time and stay for the entire session. If you have accumulated more than 3 absences on July 6, 2012, you will be dropped from this course. Do not be late to class. If you are not present when role is taken you will be marked absent, it is your responsibility to inform me if you arrive after role has been taken.

Grading: Grades will be based on four sets of criteria: Homework, Quizzes, Midterm exams, and a Final exam.

Homework: Homework is to be done on paper and answers must be submitted online at <http://www.coursecompass.com>. 3 attempts at each problem are given before a new problem is generated. There is no limit to how many times a new problem can be generated. All problems must be written on paper and worked in an organized manner with all steps shown. Paper completion of homework will be collected on a random basis. **No late homework assignments will be accepted.** Homework will make up twenty percent of your overall grade in this course.

Quizzes: A short quiz will be given at the beginning or end of class on a random basis. You will not be given notice of when these quizzes will occur. Quizzes will make up five percent of your grade.

Midterm Exams: The midterm exams will make up the majority of your grade in this course. In most cases a midterm exam will follow the completion of a chapter in the textbook and cover the material discussed in that chapter only. If appropriate a midterm exam may cover more or less than one chapter in the text. If you complete this course with fewer than 4 absences (3 or less) and fewer than 4 tardy or left early marks, your lowest midterm exam score will not count toward your grade. Midterm exams will make up sixty-five percent of your grade.

Final Exam: There will be a comprehensive final exam at the end of this course. The final exam may not be dropped from your grade. The final exam will make up ten percent of your grade. The final exam date for this course is Thursday July 26, 2012 at 8:00 AM.

Grading scale:

Final Percentage Points	Grade
90<100	A
80<90	B
70<80	C
60<70	D
0<60	F

Academic Dishonesty: Academic dishonesty in any form is a very serious offense and will incur serious consequences, including but not limited to receiving a grade of F in the course. For the college policy on cheating and plagiarism, see the college catalog.

If you have a verified need for an academic accommodation or materials in alternate media (i.e., Braille, large print, electronic text, etc.) per the Americans with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act, please contact me as soon as possible.

A blackboard website will be maintained for this course. The web address is:
