

Medical Terminology

OT-10-78868 (3 units)

Reedley College / Summer 2016

Instructor: Pam Gilmore

Class start date: May 23, 2016

E-mail: pam.gilmore@reedleycollege.edu

LAST DAY TO DROP: Saturday, June 25, 2016

Course Description:

This course provides students an opportunity to learn medical vocabulary with concentration on prefixes, suffixes, and root words. Emphasis is given to word dissection and definitions as applied to the body systems including the terminology used in examinations, diagnoses, procedures, laboratory investigations, and medical reports. **Students must pass a final 160-word definition exam with 95% accuracy in order to pass the course.**

Advisories: Eligibility for English 125 and 126 (This means that if you did not test at this level or above, you should not be able to pass this class. Email me with questions/concerns.)

Course Outcomes:

Upon successful completion of this course, student will be able to:

1. differentiate between the uses and meaning of medical terms formed from related root vocabulary.
2. analyze word parts and demonstrate ability to write medical terms correctly.
3. use their knowledge of prefixes, suffixes, and roots to ascertain meanings of words with which they are not familiar.
4. apply knowledge of anatomy and word parts to analyze medical terminology and its applications so as to prevent errors in medical records and in directions and applications of the terminology.
5. complete a final 160-word definition exam with 95% accuracy.

Course Objectives:

In the process of completing this course, students will:

1. identify the full and complete definition of 160 prefixes, suffixes and word roots.
2. construct medical words from prefixes, suffixes and word roots.
3. spell medical words correctly.
4. demonstrate an understanding of the meaning of medical words by using prefixes, suffixes and word roots.
5. label anatomy of the various body systems covered.

Academic Dishonesty: I have a policy that covers cheating, plagiarism and disciplinary procedures: anyone caught taking part in these acts will be failed.

Definitions:

Cheating is the act of deception by which a student misleadingly demonstrated that s/he has mastered information on an academic exercise. Examples are copying or allowing another to copy a test, paper, project, or performance, etc.

Plagiarism is the act of representing the work of another, as one's own without giving credit. Plagiarism includes, but is not limited to, incorporating the ideas or words of another's work without giving appropriate credit. If a student is found to be in violation of cheating and/or plagiarism, the student will either be dropped from the class or failed and a record of this act will be recorded.

Students with Disabilities: Upon identifying themselves to the instructor and the college, students with disabilities will receive reasonable accommodation for learning and evaluation. If you have a verified need for an academic accommodation or materials in alternate media (i.e., Braille, large print, electronic text, etc.) per the Americans with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act, please contact me as soon as possible. For more information, contact Disabled Students Programs & Services.

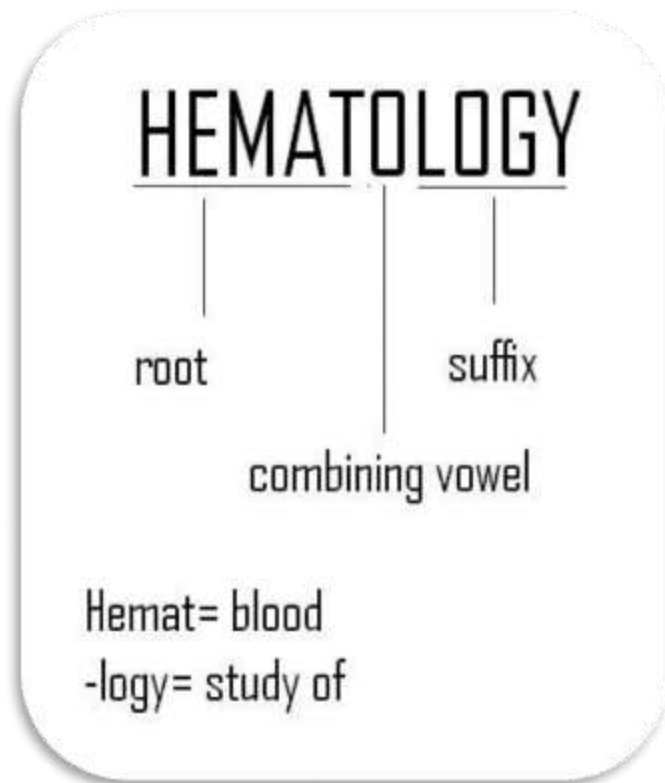

Study Groups: I highly recommend that you connect with the other students in the class and form a study group. Trade phone numbers, share study loads, and help one another. Study groups always help a person do better. In fact, I may be creating groups in Black Board later on in the semester.

Instructor Help: If you find yourself falling behind or needing help, talk to me!!! Ignoring a situation won't make it go away. The sooner you talk to me, the more likely it is that you will succeed.

Assignment Due Dates/Times: This is an online course therefore there is some flexibility as to when assignments can be completed. This does not mean that assignments can be late. I do not accept late assignments. Assignments and quizzes will be "opened" in Black Board and in CONNECT at the beginning of each week. They are due the following Sunday by midnight. No exceptions. This means that an assignment or quiz will be available on Monday and you may complete them anytime between Monday and midnight Sunday. This allows you to decide which days are best for you. I completed my Master's degree online and found that a Sunday midnight deadline was best for all of my classes since I worked full time and did not feel I had time to work on my class during the week. I could work on my classwork all weekend, turning it in by midnight on Sunday and start fresh on Monday.

Speaking of which: (time management)

It is important for you to realize that an online class does not take less time than a face-to-face class. In order to be successful in a 3 unit face-to-face class, it is expected that the student will be engaged in the class 3 hours per week and working on the class for 6-9 hours per week. This adds up to 9-12 hours per week for a 3 unit class. You should plan for the same level of commitment in your online classes if you wish to be successful.

Course Outline and Instruction Schedule / Homework and Flashcard Quizzes

All quizzes and assignments are due by **midnight on Sunday**.

Discussion Board assignments vary so **WATCH** for announcements in Black Board.
