

Math 11: Elementary Statistics, FALL 2018

Instructor: Walid Tayar

Email: walid.tayar@reedleycollege.edu

Phone: 559-638-3641 ext. 3263 (email is preferred)

Office hours: W 9:00-9:50am, TWTTH 11:00am-11:50am in FEM 1K or by appointment

Virtual Office Hour: Monday 7:30am-8:30am via email

Schedule #: 55652

Prerequisites:

Math 103. Basic skills advisories: Eligibility for ENGL 125 and ENGL 126

Catalog Description:

This is an introduction to statistical methods and techniques for business, behavioral, and social science majors. Topics include descriptive measures of central tendency and variability, probability, binomial and normal distributions, random variables, sampling, estimating, hypothesis testing (parametric and nonparametric), correlation and regression.

Text and MyStatLab Access Code:

You can buy the bundled textbook (which includes the textbook and access code for MyStatLab at the Reedley College Bookstore. Be careful, once you open the kit you will not be able to return the book for a full refund. You can also purchase the access code by itself, without the book. The book is available electronically through the website. **Another option would be to purchase the access code through MyStatLab. I will explain this on the first day of class.**

Text: Mario Triola, Essentials of Statistics, 5th Edition

WHEN SETTING UP YOUR ACCOUNT ON MYMATHLAB, USE YOUR 7-DIGIT REEDLEY COLLEGE ID AS YOUR USERNAME (0123456)

YOU MUST BE REGISTERED ON MYSTATLAB BY THE END OF THE DAY ON MONDAY AUGUST 13th OR YOU WILL BE DROPPED!

IF YOU ARE USING THE TEMPORARY ACCESS CODE, IT IS YOUR RESPONSIBILITY TO PAY FOR ACCESS BY THE EXPIRATION DATE OR YOU WILL BE DROPPED! NO EXCEPTIONS!

Required Course Materials:

- Stats Calculator (TI-84)

- Pencils/rulers/paper etc.
- Recommended: Mead Cambridge Quad Wire-bound Notebooks (graph paper) from the bookstore for homework.(See image below)

Online Homework:

After you read through the section in the text, read through my notes, and view the additional resources in the multi-media library you can attempt the homework. You may work ahead if you like. Each assignment has a due date. Homework will not be accepted late, but the two lowest homework scores will be dropped to allow for any tech issues, emergencies or missed assignments. You can complete any past due assignments and earn 50% credit on the past due problems up until the end of the unit. If you do not successfully complete (70% or better) three homework assignments in a row you may be dropped. If you are completely inactive online for more than 5 days you may be dropped from the course. It is important to stay current to be successful in the course!

Note: When working on homework, you do not have to complete an entire assignment during one session. If you need to stop while in the middle of an assignment, you can submit your work and the program will save it for you. You can then come back to the assignment and continue from where you left off at another time as long as you do so before the deadline. By agreeing to take this class you are to be the one doing the work for this class including all homework and exams. **HOMEWORK WILL ALWAYS BE DUE ON MONDAYS AND THURSDAYS.**

Homework Notebook: It is recommended that you keep all of your written work from your online homework assignments in a notebook of your choosing. It is important that you work out each problem and show your work. It might be a good idea to use graph paper as we will be graphing throughout the semester. **This will not be collected.** There is an example of what your notebook might look like on the last page of the syllabus.

Attendance:

Your attendance in this class is based on your activity online. If you do not successfully complete (70% or better) three homework assignments in a row you may be dropped. If you are completely inactive online for more than 5 days you may be dropped from the course. It is important to stay current to be successful in the course!

Timed Chapter Exams: There will be an exam at the end of each unit. It is recommended that you complete all of the chapter homework and the chapter review before you attempt the chapter exam. Everything is available to you now so please be careful when selecting/starting the exam. Once you start the chapter exam, it will count as an attempt and you only have 1 attempt for each exam and one hour to complete it. You may have homework and exams due on the same day so it will be up to you to manage your time accordingly. All of the homework and the exam for the first unit will be available to you from the first day so please make sure you finish them by the set deadlines. Remember, once you start the exams you will only have one attempt and one hour to finish. You cannot start it and finish it a later time like the homework. You are to receive any outside help.

Final Exam:

A final exam worth 100 points will be given at the end of the semester during finals week and will be similar to the chapter exams. IT WILL BECOME AVAILABLE FOR A TWO DAY WINDOW ONLY on a date to be determined and you will have 2 hours to complete it once you start. You are to receive no assistance of any form during the exams including the internet to search for solutions, text book, or from another person. You will be booted out of the exam if you attempt to access any other resources within the site and will not be granted another attempt.

Grading:

- Online Homework will be worth 40% of your overall grade. I will drop your 4 lowest scores including a 0 for any technical difficulties, missed deadlines, accidental attempts, unforeseen circumstances or just a poor attempt.
- Exams and Final will be worth 60% of your overall grade. I will drop your lowest score including a 0 for any technical difficulties, missed deadlines, accidental attempts, unforeseen circumstances or just a poor attempt.

<u>Percent</u>	<u>Grade</u>
90 - 100	A
80 – 89	B
70 – 79	C
60 – 69	D
0 – 59	F

Special Needs Requests:

If you have a verified need for an academic accommodation or materials in alternate media (i.e., Braille, large print, electronic text, etc.) per the Americans with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act, please contact me as soon as possible.

Academic Dishonesty:

Students at Reedley College are entitled to the best education that the college can make available to them, and they, their instructors, and their fellow students share the responsibility to ensure that this education is honestly attained. Because cheating, plagiarism, and collusion in dishonest activities erode the integrity of the college, each student is expected to exert an entirely honest effort in all academic endeavors. Academic dishonesty in any form is a very serious offense and will incur serious consequences. **Cheating** is the act or attempted act of taking an examination or performing an assigned, evaluated task in a fraudulent or deceptive manner, such as having improper access to answers, in an attempt to gain an unearned academic advantage. Cheating may include, but is not limited to, copying from another's work, supplying one's work to another, giving or receiving copies of examinations without an instructor's permission, using or displaying notes or devices inappropriate to the conditions of the examination, allowing someone other than the officially enrolled student to represent the student, or failing to disclose research results completely. **Plagiarism** is a specific form of cheating: the use of another's words or ideas without identifying them as such or giving credit to the source. Plagiarism may include, but is not limited to, failing to provide complete citations and references for all work that draws on the ideas, words, or work of others, failing to identify the contributors to work done in collaboration, submitting duplicate work to be evaluated in different courses without the knowledge and consent of the instructors involved, or failing to observe computer security systems and software copyrights. Incidents of cheating and plagiarism may result in any of a variety of sanctions and penalties, which may range from a failing grade on a particular examination, paper, project, or assignment in question to a failing grade in the course, at the discretion of the instructor and depending on the severity and frequency of the incidents.

Note: This syllabus is subject to change at the discretion of the instructor.

Section 6.1

① Find the greatest common factor

$$77 = 7 \cdot 11 \quad \text{GCF} = \boxed{7}$$
$$343 = 7 \cdot 7 \cdot 7$$

②

$$66 = 2 \cdot 3 \cdot 11$$
$$78 = 2 \cdot 3 \cdot 13$$
$$\text{GCF} = 2 \cdot 3 = \boxed{6}$$

③

$$12 = 2 \cdot 2 \cdot 3$$
$$28 = 2 \cdot 2 \cdot 7$$
$$24 = 2 \cdot 2 \cdot 2 \cdot 3$$
$$\text{GCF} = 2 \cdot 2 = \boxed{4}$$

④

$$a^6$$
$$a^8$$
$$\text{GCF} = \boxed{a^6}$$

⑤

$$a^2b^2$$
$$a^3b^6$$
$$\text{GCF} = \boxed{a^2b^2}$$

⑥

$$55 = 5 \cdot 11 \quad x^3$$
$$35 = 5 \cdot 7 \quad x^7$$
$$\text{GCF} = \boxed{5x^3}$$

⑦

$$3y - 6 = \boxed{3(y-2)}$$

⑧

$$14a^2 + 3a = \boxed{a(14a+3)}$$

⑨

$$315x^2 + 105x + 21$$
$$315 = 3 \cdot 3 \cdot 5 \cdot 7$$
$$105 = 3 \cdot 5 \cdot 7$$
$$21 = 3 \cdot 7$$
$$\text{GCF} = 21$$
$$\frac{315x^2}{21} + \frac{105x}{21} + \frac{21}{21}$$
$$\boxed{21(15x^2 + 5x + 1)}$$
