

## **BIOLOGY 2: Environmental Science ONLINE**

**Spring 2021**

Instructor: Ms. Smith Bush

Office Hours: Monday-Thursday 3:00-4:00pm Online via email. Zoom meetings as requested.

Phone: 638-0300 #3636

E-mail: bethany.bush@reedleycollege.edu

Lecture & Lab: Online & Asynchronous

### **I. COURSE DESCRIPTION**

**A. Title:** Biology 2 – Environmental Science

**B. Prerequisite:** None - Just the desire to learn.

**C. Summary:** This introductory course examines the earth as an ecosystem composed of biological, chemical, and physical processes, with an emphasis on human impacts. Topics will include the structure and function of ecological systems, air and water pollution, pesticide use, waste disposal, climate change, natural resource use, and environment laws. Students will gain an understanding of how humans influence natural environments while focusing on sustainable practices. Basic chemical, physical, and geological processes will be introduced to better explain these topics throughout the course.

**D.** Biology 2 is a 4 unit class with 3 hours lecture and 3 hours laboratory each week.

### **II. COURSE OUTCOMES:**

In the process of completing this course, students will:

- A. Understand biodiversity, and Identify and classify components of the local flora and fauna.**
- B. Apply a basic understanding of fundamental environmental and ecological principles to environmental challenges.**
- C. Understand how human activity impacts the environment leading to biodiversity loss, natural resource degradation and climate change.**
- D. Apply critical thinking skills and scientific facts to evaluate political, legal and social issues.**
- E. Understand and evaluate sustainable practices related to natural resource conservation and environmental health.**
- F. Apply scientific methodology to develop and test hypotheses as they relate to environmental and life science**

### III. REQUIRED MATERIALS:

1. Principles of Environmental Science; Cunningham, W. & Cunningham, M., McGraw-Hill, 8<sup>th</sup> ed., with Connect Access.

### IV. ATTENDANCE:

You will be considered absent if you fail to participate in the weekly online discussions/postings, assignments, and quizzes. After one week of no communication, you may be dropped from the course.

**~~~Simply Logging in to the Course Is Not Considered Attendance~~~**

**\*\* If you fail to participate in the first introductory online discussion by midnight the first week of class Wednesday, you will be dropped from the class. Students who do not purchase and use a Learnsmart access code by the end of the second week will be dropped from the class.**

### V. TESTS AND EVALUATIONS:

#### A. Grading

<u>Description</u>	<u>Points Possible</u>
Lab Exercises (approx. 13)	130
Learnsmart Assignments (16)	160
4 Exams (125 pts. each)	500
Research Project	160
Approximate Total Points =	950

#### B. Grading scale:

90% = A    80% = B    70% = C    60% = D    59% and below = F

At any point you can check your grades on our Canvas site through the Reedley College homepage: [www.reedleycollege.edu](http://www.reedleycollege.edu) Your Canvas username and password is your 7 digit student ID number. You are encouraged to check this site regularly and keep track of your own grades!

C. *Exams* will include multiple choice questions and usually 3 short essay questions. Many times these essays will be the main objectives of each chapter. **Policy for missed exams:** If you know you will miss class during an exam, you may arrange to take the exam early with no penalty. If you miss an exam due date, you will have one week to make up the exam. Your exam score will have 10 percentage points deducted each day as a penalty

for late work. If you have a medical excuse you will be exempt for the point deduction. It is the students' responsibility to arrange a time for the make-up exam.

D. *Lab Exercise Grades* will come from your lab work itself. These are to have the answers to laboratory questions on handouts or from your lab guide as well as any problems to work or tables to fill in. Be sure these are neatly done and in the same order as the handouts. You will be able to turn in late lab work up to one week late with a 10% penalty for each day it is late.

E. *Learnsmart Assignments* will be accessed through the publisher's website. You must purchase an active access code when you buy your textbook. Every chapter will have a Learnsmart assignment designed to help you better understand the material. No late Learnsmart assignments will be accepted without a medical excuse.

F. There will be one research assignments requiring you to research an environmental topic and present to the class. More will follow on this later.

## **VI. Other information:**

**Drops:** You have until the end of the 9th week of school to drop. If you elect to do so, be sure to drop yourself. Do not assume you have been automatically dropped. This is very important, as after the 9th week a grade must be given, by state law, whether you attend class or not.

**Adds:** If you are given an add code, be sure to add on Webadvisor within two days of receipt. After this date, you will not be allowed to add the class with that add code.

**Extra Credit:** Extra credit is recommended if you feel that you are a borderline grade and that you need 25 points to get you over the hump. Extra credit should be viewed like an insurance policy. You're never quite sure when it may be needed. All extra credit is due at the beginning of the 17<sup>th</sup> week

## **VIII. Help:**

If you should have difficulty grasping the material presented during the course be sure to see your instructor at the first sign of trouble. Often, a few minutes can clear up many problems! If you are having trouble studying, perhaps you need a few study hints or a tutor at the Tutorial Center. Please come in for help!

Always keep in mind that this is a four-unit course. As a general rule,

each hour of lecture requires two hours of additional study outside of the classroom each week. Each hour of lab requires one hour of study time, outside the laboratory each week. This equals more than eight hours of study each week in order to pass this class. Do your planning accordingly. Success comes before work only in the dictionary. Overall, I hope you have a fun semester and learn Environmental Science along the way. Good Luck.

### **IX. Academic Dishonesty**

Students at Reedley College are entitled to the best education that the college can make available to them, and they, their instructors, and their fellow students share the responsibility to ensure this education is honestly attained. Because cheating, plagiarism, and collusion in dishonest activities erode the integrity of the college, each student is expected to exert an entire honest effort in all academic endeavors. Academic dishonesty in any form is a very serious offense and will incur serious consequences. See college catalog for details.

### **X. Accommodations**

If you have a verified need for an academic accommodation or material in alternate media (i.e. Braille, large print, electronic text, etc.) per the Americans with Disabilities Act (ADA) or Section 504 of the Rehabilitation Act, please contact me as soon as possible.

## Tentative Lecture & Lab Schedule

### Biology 2 Online – Spring 2021

Lecture	Readings/Learnsmart	Lab Assignments/Exams
<b>Week 1:</b> Understanding the Environment	Ch. 1	Introductory Discussion Lab 1: Biodiversity Timeline SLO Pre-Survey
<b>Week 2:</b> Environmental Systems	Ch. 2	Lab 2: Carbon Lab
<b>Week 3:</b> Evolution, Species Interactions & Communities	Ch.3	Lab 3: Ecology Lab
<b>Week 4:</b> Human Population	Ch.4	Lab 4: Demographics Lab
<b>Week 5:</b> Biomes & Biodiversity	Ch.5	Lab 5: Human Population <b>Exam #1</b> Ch. 1-4 & labs
<b>Week 6:</b> Environmental Conservation	Ch.6	Lab 6: Biomes & Biodiversity
<b>Week 7:</b> Food & Agriculture	Ch. 7	Lab 7: Food Inc.
<b>Week 8:</b> Environmental Health & Toxicology	Ch. 8	Lab 8: Disease Lab
<b>Week 9:</b> Climate	Ch. 9	<b>Exam #2</b> Ch. 5-8 & labs
<b>Week 10:</b> Air Pollution	Ch.10	Lab 9: Climate Change Lab <b>Rough Draft Due</b>
<b>Week 11:</b> Water: Resources & Pollution	Ch. 11	Lab 10: Cadillac Desert Lab Peer Reviews Due
<b>Week 12:</b> Environmental Geology & Earth Resources	Ch.12	Lab 11: Plate Tectonics
<b>Week 13:</b> Energy	Ch.13	<b>Exam #3</b>

Ch.9-12 & Labs

---

**Week 14:**

Solid & Hazardous Waste

Ch.14

Lab 12: Energy

---

**Week 15:**

Economics & Urbanization

Ch.15

Lab 13: Food Waste

**Final Draft Environmental  
Disaster Due**

---

**Week 16:**

Environmental Policy & Sustainability

Ch.16

Lab 144: Carbon Footprint  
Lab

---

**Week 17:**

Presentations

Presentations

---

**Week 18:**

**Exam #4**

*Ch.13-16 & Labs*
