**Mandatory Signature Assignments:** are indicated above with **\*\*SA**  
***these assignments are REQUIRED in order to take the final exam OR earn any extra credit.***  
**Students must pass signature assignments with a C or better. Students who do not earn a C or better on the attempt signature assignments will not earn the right to take the final exam, will lose all participation points, flow sheet points and will not be allowed to earn extra credit.**

The following numerical guidelines will be used in the assignment of final grades.

900-1000 = A  
800-899 = B  
700-799 = C  
600-699 = D  
599- 0 = F

The instructor reserves the right to increase points for students who are *on the margin* (defined by Dr. C as less than 10 points); this will be done on the basis of attitude and participation throughout the semester and is solely at the discretion of the instructor.

Students will not qualify for this *on the margin* grade adjustment if they did not submit any outside extra credit, or if they have utilized 2 or more of the 12 hour window options. On the margin grade adjustments are not a given they are "solely at the discretion of Dr. C."

## Classroom Advisory, Requirements and Department

Since this is an online course, it is recommended that students have good basic computer skills. If students are intimidated to utilize computer programs and do not want to conquer the fear, this is not the class for you. Students should have access to a computer and an internet connection. A DSL/broadband line is preferred since you will need to upload documents, participate in presentations and watch videos.

Additionally an online course requires a high degree of independent learning. Students must have self-discipline to stay on top of their work without reminders from me or anyone else or you will fail this class. Although you do not physically attend the course you must log in and engage in the material on a weekly basis. Successful students are those who log in and engage in the material on a regular basis at least two to three times a week.

Students must respect the other students in the class. Comments and posts should be respectful and appropriate. I reserve the right to block any student whose comments are out of bounds. If necessary students can be reported to the dean of student services or removed from the course. As a communication course, part of the content is to recognize that our messages should be created for a specific audience. The audience for this course is: “educated adults” and I will expect the discussions and posts to be appropriate for an educated adult audience. Under no circumstances will flaming (online name-calling, hate speech, etc.) be allowed.

Please know that due to the nature of this course (controversial topics), it is possible that the subject and language in the debates will be controversial and for educated adult audiences.

Although the course is taught online this course still requires a face to face component for debates/presentations. Therefore varied dates/times will be offered where students can pick which time slot works best for their schedule. Debates will require all students on a team to agree to a date/time. Please discuss these as a team prior to reserving your time slot. If none of the times slots offered work please contact Dr. C immediately so that arrangements can be made.

**Canvas** - Canvas will be our primary method of instruction. Students should be familiar or become familiar with Canvas. Please seek additional help during an office hour or ask the tutorial center for extra assistance. Keep in mind when reviewing grades in Canvas the point total is the ONLY thing that matters, percentages do not reflect true grade. Technical difficulties are **NOT** a valid excuse. All deadlines are final – plan ahead, and drop box early. Assignments will be due at 10 pm. Students will have the ability to “purchase” a 12 hour window to upload assignments the cost is a 5 point penalty assessed on the current assignment. This penalty will be given even if the assignment is one minute into the 12 hour window. The 12 hour window eliminates all technology excuses, high turn in score, or lack of submission. The 12 hour window is implemented to allow students to figure those issues out. I will NOT excuse any assignment that did not get into the drop box beyond the 12 hour window under ANY CIRCUMSTANCE – DO NOT ASK.

**Participation/Engagement Points**: This class is only good if it is interactive therefore; participation is vital to the classroom environment. Each student is expected to read the explained tab in the modules every week, watch all lecture content along with accompanying videos and activities. Students’ participation grades could suffer if a student does not log in regularly to the course.

## Brief Descriptions of Assignments

**Persuasive Position Presentation:** Students will prepare a presentation 3-4 minutes in which they will be assigned a current controversial topic where they will be given the proposition, and the side they will defend. This speech must be done in Zoom live to the instructor. Sign up for a time slot that works for you.

**Debates:** Debate dates will be pre-assigned. **Debates must be given live in Zoom. Sign up for a time slot that works with your team.** Debates will include Mini, and Cooperative formats. Students will participate in a Mini debate. This is a much shorter version of the Cooperative Debate at the end of the semester. Both the Mini and Cooperative Debates require research. Students will be assigned a team, and a proposition. The mini and cooperative debate will be a group assignment where a dyad will formally debate another dyad on a controversial local, national or world issue. These debates will follow a modified Parliamentary Debate format and will be researched in advance. More information regarding the grade distribution and formats will be given in class at a later time. Briefs are required for both the Mini and the Cooperative Debates. Please use template provided in Canvas. We will also have an opportunity to do one SPAR debate in Zoom. I will have sign ups – these are fun impromptu debates that really prepare you for the mini debate and the cooperative debate. It also gives me a chance to walk you through a debate in a live format. They are easy – no preparation needed debates.

**Mid Term & Final:** There will be two exams in this class. The final exam is comprehensive covering all of the content covered in the course. Material for the exams will come from lectures, videos, and any reading assignments given in Canvas. Both of these exams will be open on Canvas for 3 days. Students must log in and take the exams during the dates assigned. Both exams will offer two portions to each exam. The first portion is the multiple choice portion and students can attempt that portion twice. The best score will be recorded. The second portion is a short answer essay portion and can only be taken once. Finals in my course are earned. Students who have missed a signature assignment will not be allowed to take the final exam.

**Additional Point Assignments (Extra Credit):** In addition to the assignments there will be limited extra credit assignments. They will be announced in Canvas. It is the student's responsibility to look them up and turn them in by the deadline posted in Canvas. Extra credit assignments submitted by students who have missed signature assignments (see list of assignments for **\*\*SA** designation) will **not** be accepted. In addition students who have taken advantage of the 12 hour late window 2 or more times do not qualify for extra credit. The sole purpose of extra credit assignments is to enhance learning not to take the place of assignments.
