COURSE SYLLABUS

Spring 2023

Welcome to Three-Dimensional Design! Our class will be held **face-to-face beginning January 10**. I'm glad to have you in the class. I look forward to helping you achieve new sculptural skills and achieve your academic goals this semester.

Class Meeting Times: Tuesday/Thursday 2:00-4:50 pm
Final Exam Week: May 13-19, 2023

COURSE DESCRIPTION

This course will be a study of the formal elements and principles of design in the visual language of three-dimensional art. The course will include the theory and the practice of these elements as they apply to three-dimensional space and form. The projects in this class will incorporate a variety media and building methods.

This class will introduce students to fundamental topics in three-dimensional design. Students explore the principles of visual perception and the meaning of form, space, function, and structure as they relate to three-dimensional design through a clear sequence of assignments and projects. Course work focuses on the preparation and presentation of discrete design projects that emphasizes understanding of formative processes that will lead the artist toward solutions. The class is structured with visual presentation/lecture, class assignments/projects and critiques.

COURSE OBJECTIVES

In the process of completing this course, students will:

A. Demonstrate an enhanced appreciation of 3D art as a mode of visual expression with specific and unique components to understand, explore and practice.

B. Demonstrate an ability to discuss, describe, analyze and evaluate three dimensional works of art through references to the formal visual elements and principles of design in practical, oral and written critiques.

C. Recognize the presence of specific design elements and principles in works of art as well as in the everyday physical world around them.

D. Recognize the presence of specific design elements and principles in works of art throughout history and across cultures.

E. Recognize how the elements and principles of visual language play a crucial part in the strength and communication of a visual idea or aesthetic experience.

F. Gain proficiency working with a variety of three-dimensional art media, including, but not limited to cardboard, paper, foam, wood, plastic, found materials and mixed media.

G. Understand the process of developing a design through the steps of drawing, model making and finish pattern making as well as the use of digital technology in the development of designs.

METHODS OF ASSESSMENT

- **Critiques/Oral presentations**
- **Written discussion posts**
- **Project assignments**
- **Sketchbook exercises**

ATTENDANCE & PREPAREDNESS

This semester, our class will be conducted in person in Art Center 159. Course material will also be presented on Canvas to further support the topics we are working on in class. Assignments and projects you complete in class will be required to be posted to the assignment page in the Canvas modules for grading.

Canvas, if you don't know by now, is the college's online learning system. Log in to Canvas from the My Portal link on the Reedley College homepage. I will be a present and active participant on our class's Canvas page and on the discussion forum. I will also inform and remind you of my availability via Zoom during my weekly office hour.

Attendance will be taken within the first fifteen minutes of class every period. Arriving an hour or more after the start of class or leaving without permission an hour or more

early will be marked as an absence. Your participation and in the course will be gauged by your attendance to class, your participation in class discussions and critiques, as well as the completion of unit modules and projects on our Canvas page. I will assign due dates for each project as a way for you to keep pace with the coursework.

Lack of engagement with course tasks and coursework, failure to complete graded posts of the discussion forum, or lack of communication with me as to why you have not been active in the class can result in a lost points in "followed directions" for assignment grading criteria and/or lowered participation grade and, as a last resort, you being dropped from the class. See the section on grading and assessment to view a full breakdown of how your final grade will be calculated. If you have concerns with internet connectivity or lack of means to acquire supplies from the materials list, please make contact with me via email to discuss your options so that we can find a suitable solution.

MATERIALS

Items you will need right away:

Sketchbook 9"X 12"-wire bound or hard bound
Cardboard (found, repurposed, or new)
Utility knife
X-acto knife handle with #1 blades
Pencil

These supplies may be used for different projects:

2 Full sheets of foam core board: (White or gray)
24 x 24 x 2" rigid insulation foam sheet (pink or green)

Scissors
White glue
Sculpting wire (Tie wire or jewelry wire)
Wire cutters
Acrylic Paint (More info later)

*Additional project-specific materials will be added while semester progresses.

*The Reedley College Bookstore. Office Depot or Staples for pencils, erasers, sketchbooks, etc.

*Art supplies may be obtained locally at Allard's Art Supply, Michaels and Aaron Brothers in Fresno.

* Most supplies on this list can be found online.

Some suggestions - www.utrecht.com, www.dickblick.com, and www.danielsmith.com

The sketchbook represents an ongoing project, which plays a significant part in every other project in this class. You will need it to complete homework and other preparatory work for assignments and projects.

EXPECTATIONS OF THE INSTRUCTOR

The values of an intellectual community: trust, honesty, free inquiry, open debate, respect for diversity, and respect for others' convictions will be honored throughout this class. Furthermore, the intellectual community always seeks to cultivate the virtues and characteristics of intelligence, curiosity, discipline, creativity, integrity, clear expression and the desire to learn from others. Artistic and intellectual exchange should be held in an environment of openness and tolerance.

College Policy on Academic Dishonesty

All works (visual and written) must be the student's own creation. The Reedley College highly prohibits all kinds of academic dishonesty. Incidents of cheating and plagiarism may result to a failing grade in the course. Any quotes or paraphrases from source must be properly footnoted.

CREATIVE STRATEGIES

- Be curious! Question the mechanics of objects in the world around you and how they function.
- Keep a sketchbook. This is required for the course and will be needed to complete homework assignments.
- Look around. Take note of whatever you find visually interesting and document it by making a quick sketch, taking a snapshot, or ripping out images from magazines. Save them, they'll come in handy.

- Backward engineer things. Take objects apart and learn what's inside and how they're put together.
- Unpack your ideas. The first idea you have to solve a problem might not be the best idea. Turn them over in your head and write them down on paper. See if you can define, streamline, or develop them to a more effective and interesting level. Push the boundaries of your imagination.

GRADING POLICY

I will supply you with a rubric for each assignment or project. The objectives for each assignment will be clearly presented to you prior to the start of each project and the grading criteria will be explained on the rubric provided to you.

Your performance and projects will be graded upon evaluation regarding the following:

- (a) The quality of conceptualization as it relates to projects.
- (b) The quality of technical skill.
- (c) The quality of a student's presentation.
- (d) The student's mature ability to receive and act upon critiques.
- (e) The student's ability to meet project deadlines.

Grading breakdown

• Project 1	%15
• Project 2	%15
• Project 3	%15
• Project 4	%15
• Project 5	%15
• Participation	%15
• Final portfolio	%10

%100

ACADEMIC GRADES: All projects will be evaluated on a 4 point scale.

A / A- (A=Outstanding Performance)

Student has demonstrated a high level of competence in meeting course objectives.

Student, who does consistently superior work, turns in all work on time, has excellent participation in all class activities.

Four grade points per unit are awarded. (A- yields 3.7 grade points.)

B+/B/B- (B=Good Performance)

Student has demonstrated a more than satisfactory level of competence in meeting course objectives. Student, who does above average work, turns in all work on time, has high interest in class.

Three grade points per unit of credit are awarded (B+ yields 3.3 grade points and B- yields 2.7 grade points.)

C+/C/C- (Satisfactory):

Student has demonstrated a satisfactory level of competence in meeting course objectives. Student, who does above average work, turns in all work on time, has high interest in class.

Two grade points per credit are awarded. (C+ yields 2.3 grade points and C- yields 1.7 grade points.)

D+/D/D- (Unsatisfactory):

Student has demonstrated only a barely passing level of competence in meeting course objectives so that is not necessary to repeat the course for credit. Student, who does not demonstrate understanding of assignment criteria and has poor work habits.

One grade point per unit of credit is awarded. (D+ yields 1.3 grade points and D- yields 0.7 grade points.)

F (Failure/Unacceptable Performance):

Student has demonstrated a minimally passing competence in meeting course objectives. Student, who meets lowest expectations, fails to complete assignments, has disruptive behavior.

Credit is not merited. Zero grade points are assigned.

SUBMITTING WORK

We will hold class critiques to look at and discuss your work throughout the semester. I will note the completion or incompleteness of your paintings during this critique. It is beneficial to you to be present and to exhibit your work during these critiques because you will gain helpful and crucial feedback on your painting from your peers.

All completed assignments should be submitted to the appropriate assignment page in Canvas. Please review the guidelines for documenting and photographing your work (located in the Welcome module) before submitting. All images should be photographed squarely and taken in good light. Avoid photographing your work in dark interior spaces and in direct sunlight. I recommend laying your work on the floor in indirect light (interiors) or in clean, shaded areas (exteriors). Stand directly over the

work so that the image is square within the screen. Be sure your shadow does not cover part of the image. (Poorly documented work may effect the grade you receive for the assignment.) I will demonstrate this in class.

LATE PROJECTS AND REWORKING OF ASSIGNMENTS

Each project or assignment on Canvas will have a due date for submission. Students are encouraged to submit their work fully completed by the deadline stated. If a student is not finished with the project, the student is encouraged to submit the work "as is." The work that is submitted on time but incomplete will be given a preliminary grade that can be improved upon by a reworking of the assignment. Reworking and editing of submitted projects is always encouraged and will be re-evaluated by the instructor in a reasonable time period.

Time management is an important factor in being able to complete and submit the week's assignment(s) on time. The due dates are given to help pace you through each topic. You will be able to turn in work past the due date but please note that points may be deducted for being late before the actual grading of the work, at the discretion of the instructor. If you turn in work on time or display it for class critique but want to rework the drawing and resubmit it past the due date, no points will be deducted for late submission.

INCOMPLETES

Students should consult the regarding the purpose and availability of an "incomplete" grade. An "incomplete" grade will be issued only in extreme circumstances requiring extended absence from the class at crucial times in the learning process. It will be issued only to a student who has shown diligence and responsibility, and who has completed a significant amount of the course work.

When an "incomplete" is given it is the student's responsibility to note the deadline set by the instructor for completion of the work required. It is also the student's responsibility to schedule meetings with the instructor for assessment of progress in the course. A final consultation must take place by the set deadline or the instructor will issue the grade which would have been earned if the "incomplete" had not been issued.

COURSE DROP POLICY

It is the student's responsibility to drop the course for any reason at any time. If you are falling behind the course work or earning a failing grade, you will get a Starfish notification and an email or phone call from an academic counselor to assist you in getting back on track.

GUIDELINES, COURTESIES & RESOURCES

Classroom Requirements

Please arrive to class on time with your materials ready to work. Be mindful of one another's space in the classroom and do your best to maintain a neat working area. Routinely arriving without the materials needed will contribute toward a lower grade for that project. If you need help with sourcing materials, please make sure that you discuss it with me and I will help you.

Depending on the Flu/COVID-19 guidelines established by the college, you will be expected to abide by any protocols set forth by administration if there are any.

Netiquette

Due to this course being conducted partially online, "netiquette" will be expected and observed within all discussion posts, submissions and interactions. Absolutely no harassing or obscene language or actions will be tolerated. Violations of netiquette will be addressed privately with the student and could possibly be reported to supervising faculty and administration.
