Students will develop grammatical structures, expand their vocabulary and further study the cultures of Spain, Latin America and Hispanic cultures of the U.S. This course introduces the literary text. PREREQUISITES: Spanish 1, or 2 years of high school Spanish or the equivalent skill level as determined by instructor.

Spanish 2 Course Description (for this particular section):

High-Beginning Spanish. This course stresses communication skills in Spanish. Much of the practice work will be done in pairs. The goal is for beginning students to acquire conversational ability in Spanish. By the end of the semester you will have studied the past tenses, commands, and subjunctive forms, among other things; and will have had many opportunities to use those concepts in meaningful, interactive ways. In the process, the student will develop greater knowledge of the customs and various cultures that exist in the Spanish-Speaking world. *It is assumed that you are in this class because you want to learn how to communicate in Spanish.* You will not have developed that ability completely by the end of the semester, but you will be surprised at how many communicative skills you will have acquired!

Specific course goals and objectives:

1. Students will work on developing oral competence in the Spanish language through the use of a conversation partner and communicative activities.
2. Students will develop knowledge of advanced grammatical structures such as "pretérito" and "imperfecto".
3. Students will develop greater knowledge of the customs and various cultures that exist in the Spanish-Speaking world.
4. Students will become competent writers using the Spanish language, and various creative-writing activities.

Engagement/Participation: Since learning another language requires active and frequent practice, it is essential for you to engage actively in all the class activities. Language learning involves four basic skills – reading, writing, listening, and speaking. One of the best ways to assess your language skills is through class engagement. Active engagement involves completing all activities on time, using Spanish whenever possible, participating appropriately in group/partner work, treating all classmates with respect, asking questions as needed, and maintaining a positive and cooperative spirit throughout the course.

Study Hints

1. Whenever you study, do it orally. Pronunciation will improve if you practice aloud.
2. Don't feel you have to sit at a desk to study. Try using the new words to describe people and things you see as you walk or drive.
3. As you prepare for class, get to the point where you can say the utterances without looking at the book.
4. Where possible, study with a classmate. Also, at the beginning of the semester you can register for tutorial help.
