# Finalizing the Vision Statement

Presented by

Liz Murphy

CAMPUSWORKS

# Technology vision drafts

1.  By <u>December 2017</u>, develop the infrastructure and systems to sustain a relevant and innovative learning environment supported by responsive, efficient services that prepare the District's students to be innovators and leaders in the <u>global</u> workforce.

2.  By December 2017, <u>provide seamless integration of technology throughout an environment that promotes student access and learning</u> that prepares the District's students to be innovators and leaders in the global workforce.

# To address

**First address your preferences in wording**

1. By December 2017, develop the infrastructure and systems to sustain a relevant and innovative learning environment supported by responsive, efficient services that prepare the District's students to be innovators and leaders in the <u>global</u> workforce.

2. By December 2017, <u>provide seamless integration of technology throughout an environment that promotes student access and learning</u> that prepares the District's students to be innovators and leaders in the global workforce.

CAMPUSWORKS

# A question of timing

- Discuss what it will take to reach the December 2017 goal
    - Infrastructure improvements
    - Colleague re-implementation
    - SQL migration
    - Learning environment
    - Staff development & training
    - Unknowns

# Next steps

- Second Opinion Assessment review with new trustees (2 + 2 student trustees)
- Security Review
  - Assess improvements made to the environment
  - Ensure that vulnerabilities cited in other assessments have been remedied
  - Identify outstanding issues, if any
- IT Capacity Assessment
  - Does the District have the staff capacity to address the vision?
