

Chancellor's Message

The State Center Community College District 2010-11 Final Budget is the culmination of many hours of dialogue and research. As a result, it most accurately reflects the vision, mission, and priorities set forth by the District's elected Board of Trustees. At the top of the list of priorities is, of course, student access and success. Despite the fiscal challenges facing the State of California, we remain

steadfast in our commitment to serve as many students as possible at the level of excellence our colleges and centers are known for.

The Board of Trustees values our employees and realize student learning and success is dependent on having a well trained, dedicated workforce. To that end, the District has been fortunate to be in a position to avoid employee layoffs and furloughs. This is due in large part to the Board's value for our employees and its fiscal conservancy and responsibility. It is also important to note that the District's reserves remain healthy even in these times of fiscal uncertainty due to the wisdom and foresight over the years.

As you will see in the pages that follow, State Center Community College District will remain fiscally conservative

yet continue to provide the highest quality educational programs and services to students. We will also continue to seek alternative sources of revenue including private donations and grants. Finally, we will seek to expand, enhance, and strengthen our partnerships with business, industry, and our community organizations in order to leverage our resources through collaborative efforts as we rebuild our local economy and workforce.

In spite of the extremely challenging economic climate we find ourselves in the midst of on all fronts locally, statewide, regionally, and nationally, the District recognizes the critical role we must play in our region to continually develop new career and technology training programs to meet emerging labor market needs as well as ensure access to a comprehensive offering of courses to meet the full-range of student instructional needs including basic skills development, English as a Second Language, and transfer preparation.

I am pleased to report this budget provides the resources for the District to implement the 2010-2011 planning goals and priorities authorized by the Board of Trustees as outlined in the Budget Summary that follows. We will continue to offer enhanced instructional programs and student services in new facilities such as the Willow International Center Academic Building II, Reedley College Student Center and Residence Hall, Madera Vocational Building, and the opening of the Old Administration Building. As we celebrate the 100th

Anniversary of Fresno City College, we continue to partner with the dedicated community members who serve on the State Center Community College District Foundation to enhance our revenue and provide additional support to students.

We are proud our Board of Trustees is committed to serving students above the level of funding available from the state, and to that end, we will serve 10% more students than our State enrollment cap this year.

I hope as you peruse this budget summary you see more than just numbers and get a sense of the big picture that is the core mission of *your* community colleges being realized at State Center Community College District.

A handwritten signature in blue ink, reading "Deborah G. Blue". The signature is fluid and cursive, with the first name "Deborah" being more prominent than the last name "Blue".

2010-11 BUDGET OVERVIEW

Introduction

One of the most significant responsibilities of a community college district is the preparation, presentation, and approval of the annual budget. A district's budget not only serves as a report to our constituents regarding the utilization of available tax dollars and other funding sources, it also serves as a resource allocation document to support the District's planning goals, and priorities for the ensuing school year. The State Center Community College District administration is confident the enclosed budget documents reflect the effective utilization of financial resources to meet the educational goals of our District.

State Budget Overview

In January 2010 the Governor submitted his proposed 2010-11 State Budget, which identified a projected budget shortfall of \$20 Billion covering the 2009-10 and 2010-11 fiscal years. Of this amount, \$6.6 Billion was in the 2009-10 fiscal year and \$13.3 Billion is 2010-11 budget shortfall. In reviewing the May Revise and the most recent projection of the State budget deficit, one would find little change with the Governor projecting a \$19 Billion shortfall where as

the most recent deficit identified by the Democrats is \$18 Billion. Regardless of the deficit number one might choose, \$18 Billion or \$19 Billion is a major obstacle to overcome when the Governor's May Revise General Fund proposed a 2010-11 expenditure of \$83 Billion. This budget deficit represents a daunting challenge to the State lawmakers who exhausted many of the available budget solutions when adopting the 2009-10 State Budget in July 2009.

The members of the legislature took their July summer recess and returned to address the budget challenge on August 2. The Democrats proposed and passed along party lines out of the Budget Conference Committee, their proposal, now to be considered by the full senate and assembly. The Democratic proposal increases overall State revenue through a combination of an increase in personal income tax and the vehicle license fee, while lowering the State sales tax for a net tax increase of \$1.8 Billion. The plan further delays corporate tax cuts scheduled to take effect January 1 and also suspends Proposition 98 funding for K-12 and community colleges but still provides \$3.0 Billion more funding than the Governor's May Revise. Most of the additional money will go to K-12 and State funded child care.

The important components to the Democratic proposal for the Community College System are to uphold the \$900 million “maintenance of effort” deal to restore ongoing funding over the next several years as the economy improves. The plans also include enrollment growth funding at 2.21%, elimination of the -0.38% COLA, increase funds for Economic and Workforce Development, and backfill of the 2009-10 federal funds. Republicans and the Governor say the plan is dead on arrival and continue to insist no tax increase be included to close the \$19 Billion deficit.

Many unanswered questions still exist about the State Budget and its final outcome, but the District's 2010-11 Final Budget is developed to limit financial exposure that might occur when a final budget is adopted and signed in Sacramento. The basic assumption behind the State Center Community College District 2010-11 Final Budget is to consider the overall economic challenges for all State funded programs and determine the feasibility of increasing funds to community colleges while cutting other social services. In final analysis it is unlikely the State can fund any significant increase to the operational budgets of the community college system but is capable of maintaining the basic funding level provided in 2009-10 to the system.

Considering all aspects of the State Budget, community college funding per FTES will not change

in 2010-11 from the 2007-08 funding level for base apportionment. In order to maintain this same level of apportionment funding per FTES, the State decreased the base-funded FTES by more than 3.6% for 2009-10. This was called a workload reduction, meaning the District is expected to serve fewer students and produce less FTES. In actuality it means the District will receive less funding because it will be funded for fewer FTES. This is a mathematical calculation to maintain the funding at the 2007-08 apportionment level of \$4,565 rather than applying a deficit factor to the actual earned apportionment. The District-funded FTES have dropped from 27,692 in 2008-09 to 26,622 in 2009-10 or more than 1,000 FTES.

The Governor’s proposal did include 2.21% funding for growth but it seems highly unlikely any such funding will materialize. In fact, community college groups are requesting restoration of funding to programs before additional growth is funded but would likely accept anything in terms of new money (no growth funding is included in the Final Budget). The proposal did include a negative for COLA for all programs receiving COLA (no loss in COLA is included in the Final Budget). The categorical programs funded by the State experienced cuts ranging from 40% to 50% in 2009-10 with EOPS being targeted for additional reductions from the 40%

cut to the 50% level in 2010-11. These cuts included previously protected programs such as DSP&S, EOP&S, and Matriculation. The budget proposal does not include an increase in student fees although the Legislative Analyst's Office (LAO) has recommended an increase from \$26 to \$40 per unit.

The Final Budget, as presented, represents a fair evaluation of the State Budget and its effects on the State Center Community College District Budget as currently projected by the California Community College League and the State Chancellor's Office. Major components of the Governor's proposed 2010-11 State Budget under which the District's Final Budget has been prepared include the following:

- **Base Apportionment** – \$5.8 Billion is the base apportionment. With the economic uncertainty there remains a strong likelihood of reductions after enrollment growth and COLA funding adjustments are held neutral.

SCCCD Impact – The District remains very cautious about this funding level since the \$7 Billion 2009-10 shortfall has not been resolved and the \$13 billion 2010-11 shortfall has not been addressed. The current budget is estimated to generate \$131.9 million in general apportionment revenue based upon the 2009-10 P-2 report,

assuming there are no increases or reductions from the 2009-10 State Budget revenue projection for SCCCDC.

- **COLA** – -0.38% in funding has been proposed for COLA.

SCCCD Impact – The Budget has been developed with 0.0% funding for COLA.

- **Growth** – 2.2% has been proposed for growth.

SCCCD Impact – The Budget has been developed with 0.0% funding for growth.

- **Part-time Faculty Compensation** – \$14.9 million for part-time faculty compensation. This is a reduction of \$10 million from the 2009-10 level.

SCCCD Impact – Based upon State allocations, the District will receive an estimated \$349,000 in 2010-11. The final appropriation for this category is passed on to part-time faculty, resulting in no impact on discretionary funding for the District.

- **CalWORKs** - \$26.7 million for statewide CalWORKs Programs. This funding is unchanged from 2009-10.

SCCCD Impact – Based upon a prorated share of CalWORKs funding, it is estimated the District will receive approximately \$847,000.

- **Matriculation** – \$49.0 million statewide for Matriculation-related services. This funding is unchanged from 2009-10.

SCCCD Impact – Based upon a prorated share of Matriculation funding, it is estimated the District will receive \$808,000.

- **Instructional Equipment and Library Materials, Hazardous Substances, and Scheduled Maintenance and Repair** – \$0.0 million statewide for the three programs. Projects eligible for funding in any of the three programs identified may be funded from these funds along with the District's funding match requirement. This amount represents a 100% cut from the 2008-09 funding level of \$27.3 million. \$0.0 was received in 2009-10 as well.

SCCCD Impact – The Budget has been developed with \$0.0 for these programs.

- **Student Financial Aid Administration** – \$55.0 million to provide funding for Student Financial

Aid Administration. This funding is unchanged from 2009-10.

SCCCD Impact – The District expects to receive \$1.4 million.

- **Extended Opportunity Programs and Services (EOP&S) and CARE** – \$73.5 million statewide for EOP&S and CARE. This funding is unchanged from 2009-10.

SCCCD Impact – Based upon a prorated share of EOP&S and CARE funding, it is estimated the District will receive \$1.9 million

- **Disabled Students Programs and Services** – \$69.0 million statewide for DSP&S. This funding is unchanged from 2009-10.

SCCCD Impact – Based upon a prorated share of DSP&S funding, it is estimated the District will receive \$1.3 million

2010-11 State Budget Outlooks

The State economic situation remains very much in a downward spiral. It is generally expected the revenue estimates used to prepare the 2009-10 Revised State

Budget will be almost \$7 Billion less than estimated with the Governor calling a special session of the Legislature to address the shortfall with virtually no corrective action being taken.

This sets the stage for a long budget deliberation process for the 2010-11 State Budget, particularly given the legislature took its summer recess. The 2010-11 Budget is further exacerbated by a shortfall projection of \$13 Billion in 2010-11 creating a two-year total shortfall of \$20 Billion (per LAO May analysis) within a State Budget of less than \$175 Billion over the same two-year period.

Although remaining hopeful of the enrollment growth funding proposal in the May Revise and the Democratic proposal, the System is cautious in budgeting the growth funding. Hence the best case scenario as the legislature (Democrats and Republican) returns to the State budget negotiating arena is to maintain the same funding commitment to the community college system in 2010-11 as in 2009-10 which when compared to other State funding services represents a strong State commitment to the Community College System.

2010-11 District Planning Goals and Priorities

Following are the planning goals and priorities established by SCCCD for the 2010-11 fiscal year and the significant changes included in the Final Budget:

- Continue to seek out opportunities to fund current permanent academic and classified employees.
- Continue to maintain a high level of load efficiency in the classroom (students per full-time faculty [WSCH/FTEF]).
- Serve 10% more FTES than are projected for funding by the State (est. 2,700 unfunded FTES).
- Continue to analyze, modify and update plans for recruitment and retention of students by the Colleges and Centers to ensure student success at the Colleges/Centers.
- Continue to analyze and maximize the use of technology to more effectively and efficiently deliver instruction, student services, and business services to students.

- Continue to implement the recommendations of the accreditation teams and planning agendas in the Colleges' Self-Studies and begin the process for the development of the next Self-Study documents in preparation of a 2011-12 accreditation visit. This will include a coordinated Self-Study for the Willow International Center to be considered for candidacy for initial accreditation as a College by the Accrediting Commission for Community and Junior Colleges (ACCJC), Western Association of Schools and Colleges.
- Use the Educational Master Plan for the District/Colleges/Centers to develop a Facilities Master Plan, which will prepare the District for submission of applications for State funding and for the development of the facilities to be placed upon the next District bond election.
- Continue the process to annually review, update and adopt the District Strategic Plan. This planning process is purposely designed to provide the District with a rolling strategic plan, which renews, modifies, adds or deletes District goals and objectives so as to provide strategic direction for the District/Colleges/Centers as they strive to better meet the needs of the community and students.
- Continue to review and revise the career and technical programs at all Colleges/Centers to meet the identified labor needs of the service region to include continued job training/placement opportunities through the Fresno and Madera County Workforce Investment Boards, the Regional Jobs Initiative, and Economic Development Corporations, as well as other workforce development groups which exist within the State Center Community College District.
- Continue the implementation of a Capital Facilities Program for the \$161.0 million in funds from the successful passage of a General Obligation Bond (Measure E) in November 2002. The District has completed a series of four bond issuances for a total of \$131.0 million.
- Continue the analysis and implementation of programs to enhance the positions of Fresno City College and Reedley College on the Accountability Report for Community Colleges (ARCC), as prescribed by the State Chancellor's Office (AB 1417).

- Continue the technology modernization project on the Reedley College campus.
- Complete the reconstruction of the Old Administration Building on the Fresno City College campus with occupancy scheduled for classroom instruction in the spring of 2011.
- Continue to evaluate and modify as needed the District's diversity programs, including staff development and recruitment.
- Continue with the external/internal capital donor campaign for the Old Administration Building (OAB) auditorium renovation project.
- Review programs/services/outcomes and modify/update the following areas as necessary for each College and Center:
 - Career and Occupational Education
 - Transfers and Degrees
 - Enrollment Management
 - Shared Governance Procedures
 - Business Partnership and Outreach

2010-11 District Budget Summary

In the development of the budgets over the years, the Board has been conservative and forward thinking in its understanding and direction by focusing on maintaining access for students and employment stability for staff. The Board further understands and accepts that the economics of the State are fluid and tremendous fluctuations can occur between the good and bad economic times. Examples are the severe State economic downturns which occurred between 2002-03 and 2004-05 and began again in 2007-08. Predictions from most economists are that the first sign of an economic recovery for the State will not be seen until 2013-14 and any recovery will be slow in its progress. The District has consistently developed responsible budgets which balanced fiscal strengths and weaknesses over several years rather than riding the fiscal roller coaster with all the implications for ups and downs in student access and the employment cycles of hiring and reducing permanent staff. The current State economic situation, while more severe, is being met with the same fiscal planning as in the past. The District served 30,558 FTES in 2008-09, up from 27,605 FTES in 2007-08. By comparison in 2009-10 the District served 31,479 FTES with funding being received for 26,622 FTES. It is important to note that 4,857 FTES are being served by the Colleges/Centers for which no funding is being

received from the State. This level of service to students is only possible as a result of the commitment of the Board and staff combined with \$2 million in unexpected savings in the 2009-10 budget and the limited federal stimulus funding received by the District. As in past years, the challenge to meet student access is a cornerstone of the District's obligation to the communities it serves. State Center Community College District has been successful in maintaining its financial stability and integrity and will continue to do so. With a General Fund budget of approximately \$167 million and a total budget in excess of \$257 million, including \$6.9 million in capital expenditures (capital outlays and Measure E projects), the District clearly has a role and recognizes its importance as a shareholder in the educational opportunities of its various constituency groups.

The District further recognizes the importance of assisting the communities in the economic development needed to provide employment opportunities and prosperity for the region as it struggles with the economic recession faced by the State/nation/world.

BUDGET CALENDAR

The timelines and requirements for publication and availability of a community college district's budget are specifically outlined in the California Code of Regulations. These requirements include the schedule for approval of a district's Tentative Budget on or before July 1 and subsequent adoption of a Final Budget prior to September 15. In addition, a public hearing must be held prior to the adoption of the Final Budget with appropriate publication in a local newspaper making the proposed budget available for public inspection.

The Final Budget is based upon several sources of information which include the 2010-11 State Budget as proposed by the Governor in May 2010, budget updates from the State Chancellor's Office, and the Community College League of California and School Services of California. The District does not anticipate receiving more definitive budget information from the State until the State budget is passed. The State Chancellor's Office and the League are optimistic a State budget will be passed in September but after the statutory date for the Board of Trustees to adopt the Final 2010 State Center Community College District Budget on September 15, 2010.

The process of developing a community college district budget is an ongoing function and must be addressed by the Board and administration throughout the school year. In order to effectively develop a fiscal document that reflects the goals and objectives of the District, the budget process must include a well-defined Budget Calendar outlining when each component of the budget is to be completed and the responsibilities for completion.

The following Budget Calendar for preparation of the 2010-11 Budget was adopted by the Governing Board at its February 2, 2010, meeting and has guided the District in its budget development and adoption processes.

State Center Community College District

Budget Development Calendar

2010-11

Due Date	Responsibility	Activity
1/25/10	Chancellor's Cabinet	Review and approve Budget Calendar
2/2/10	District	Distribute tentative staffing information to District/Colleges/Centers

9/7/10*	Board of Trustees	Public Hearing and Final Budget adoption for 2010-11

*Regular Board Meeting

**Special Board Meeting/Workshop (at Discretion of Board)

2/2/10

DISTRICT ORGANIZATION

The 2010-11 General Fund and auxiliary fund budgets were developed to reflect the educational programs of the State Center Community College District. The programs of the District are consistent with the mission of the California Community Colleges.

California Community Colleges Mission

The mission of the California Community Colleges is to offer academic and vocational education at the lower-division level for both recent high school graduates and those returning to school. Another primary mission is to advance California's economic growth and global competitiveness through education, training, and services that contribute to continuous workforce improvement. Essential and important functions of the colleges also include: basic skills instruction, providing English as a second language, adult noncredit instruction, and providing support services that help students succeed. Fee-based Community Services Education is designated as an authorized function. To the extent funding is provided, the Colleges may conduct institutional research concerning student learning and retention as is needed to facilitate their educational missions.

State Center Community College District Mission

State Center Community College District is committed

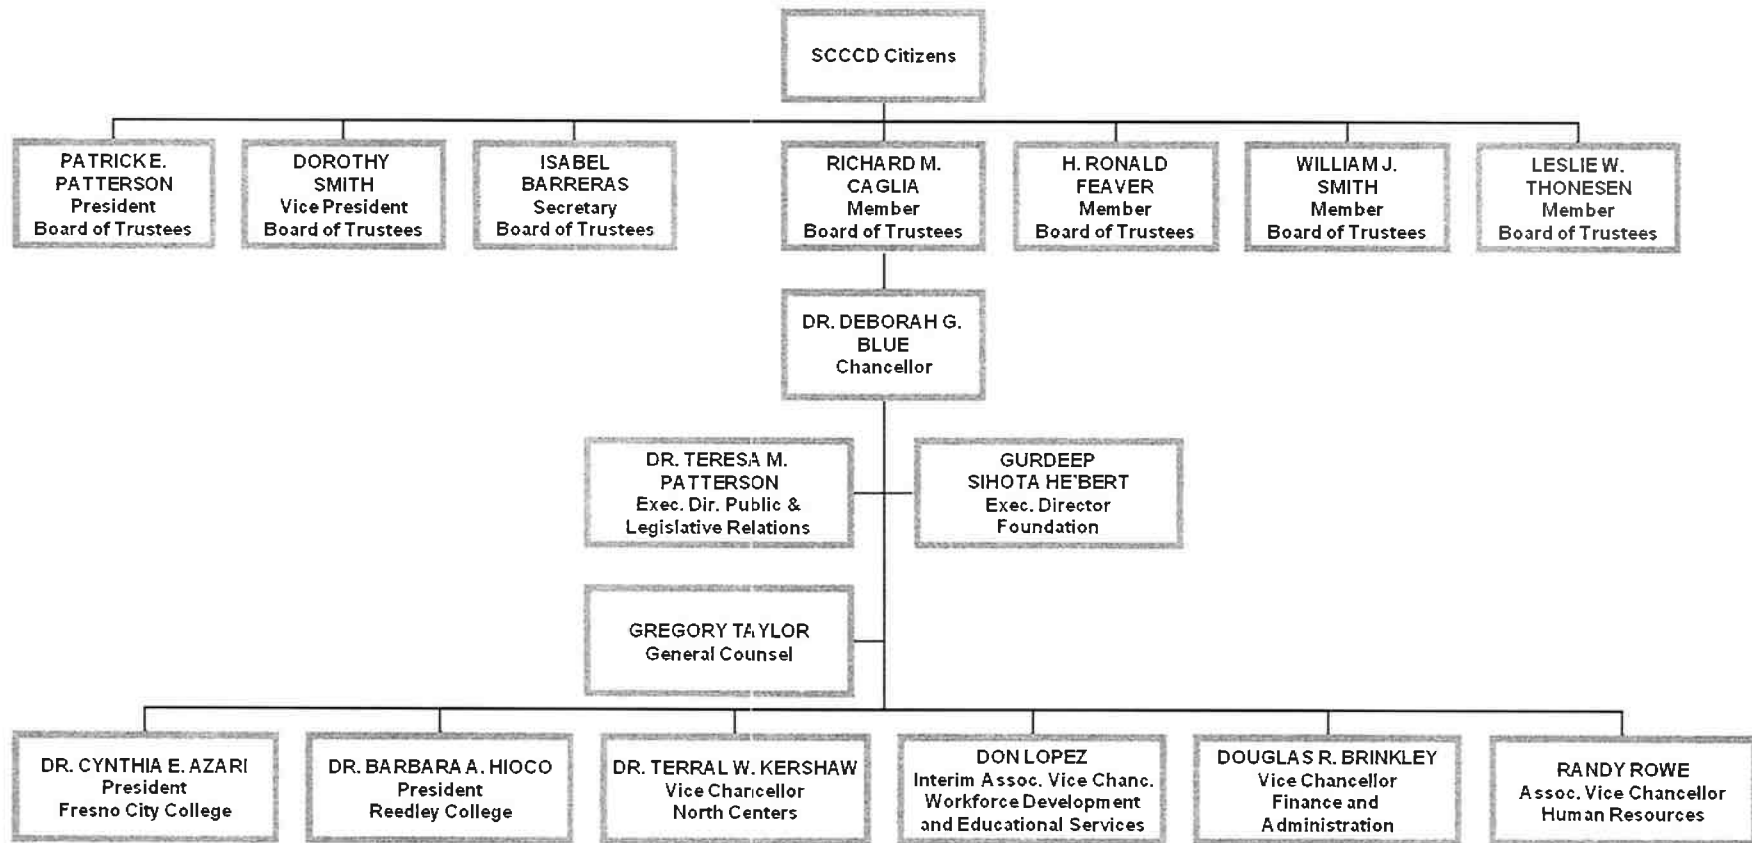

to lifelong learning and success for all students by providing accountable, accessible, and innovative, quality educational programs and services that enable productive citizenship in a diverse, global society.

District Organization

State Center Community College District expects to provide educational services to more than 60,000 students on its seven campuses. An organization of this size must have a well-defined structure in order for it to operate successfully on a day-to-day basis. The District is administered by a seven-member Board of Trustees, elected to four-year terms “by-trustee” areas representing specific trustee areas within the District. In 2010 the district changed the method for election of trustees. Rather than “from trustee area” elections, i.e. elections in which “each governing board member [is] elected by the registered voters of the entire school district...but reside in the trustee area which he or she represents[.]” the district will hold “by-trustee area” elections, i.e. elections in which “one or more members

residing in each trustee area [is] elected by the registered voter of the particular trustee area[.]” Cal. Educ. Code sections 5030 (b) and (c). In November 2010 the first “by-trustee area” election will be held in the district with three trustee areas electing. In November 2012 a second “by-trustee area” election will be held for four trustee areas. Since the election periods are staggered in even-number years, the implementation of “by-trustee area” elections will not occur for all trustee areas until November 2012. The following organizational structures were in effect for the 2009-10 and 2010-11 school year:

State Center Community College District 2010-11 Organizational Chart

FUNDING METHODOLOGY CALIFORNIA COMMUNITY COLLEGE DISTRICTS

Introduction

The financial support for the California Community College System has evolved over the years as have the colleges and the purpose for its services. Since the inception of the Community College System in 1907, there have been numerous changes in the method of distributing State and local funds for the support of community colleges. In 2006-07 legislation was passed and signed into law (SB 361) which provides a base funding level called a Foundation Grant for each college or center plus a per full-time equivalent student (FTES) funding amount of at least \$4,367, to bring all Districts in the System to the 90th percentile in funding per FTES. This new model was developed in consultation with the State Chancellor's Office, the Consultation Council, Community College Chief Business Officials, and the Board of Governors.

In 1988 the California voters approved Proposition 98, an initiative that amended Article XVI of the State Constitution and provided specific procedures to determine a minimum guarantee for annual K-14 funding. The Constitutional provision links K-14 funding formulas (which include

community colleges) to growth factors, including State revenues and student population. These various factors determine the percent of the State of California budget which is dedicated to K-14 education.

Funding Models Under SB 361 of 2006

Under SB 361 a district will receive a Foundation Grant for each college or center of varying amounts based upon the size of the college and center. The Foundation Grant amount is augmented by a per-FTES funding level. The apportionment calculation components of the Foundation Grants and per-FTES funding level are adjusted each year by the following:

1. COLA (cost of living adjustment)
2. Stability (for districts experiencing decline)

Growth funding in the model becomes simply the State-funded FTES growth allocation for a district times the per-FTES funding level for the year.

Additionally, the financing of a community college district in the System is provided in accordance with

Education Code Section 58870, which states that for each district the State shall subtract from the computed revenue apportionment a district's local property tax revenue and 98% of the enrollment fees collected by the district. The remainder shall be apportioned for each district by the State of California. This means the actual amount of revenue provided to a community college to operate is not impacted by the wealth of the local area's property tax base or the amount of enrollment fees collected since they are deducted from the State's calculated apportionment for each district.

Student Fees

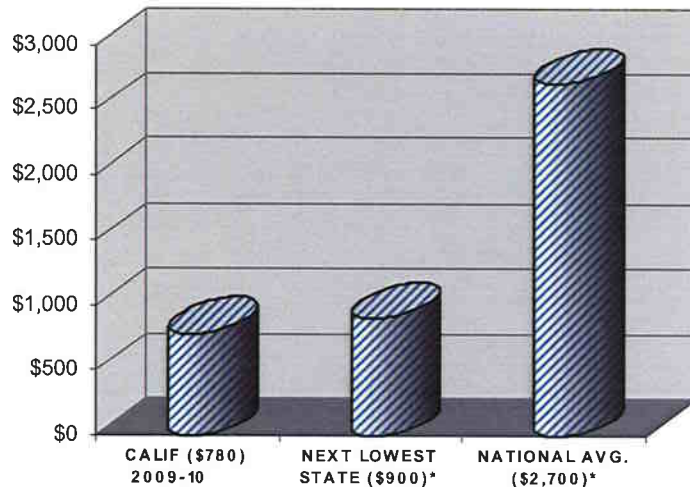

The amount of enrollment fees and other student-related fees is strictly controlled by the State of California. This amount has remained constant since the fall semester of 2007-08 at \$20 per unit fee. The fee was increased to \$26 per unit starting with the fall semester of 2009-10.

Outlined in the graph is a history of community college per unit enrollment fees:

Following is a graph comparing California community college resident tuition and fees to other states. As you can see, in 2008-09 the California Community College System was the lowest tuition/fee cost system in the nation and still remains the lowest in 2009-10.

COMMUNITY COLLEGE RESIDENT TUITION & REQUIRED FEES

*Based on 2008-09 Information
Source: Governor's Budget Highlights

Based upon these 2008-09 figures, the \$900 in fees for the next lowest state (New Mexico) is 15% more than the California Community College System 2009-10 fees of \$780. The national average for community college tuition for the same period was \$2,700, about 3.5 times that in California. The fee amount is currently proposed to be unchanged for California community colleges in 2010-11.

Following are the tuition and fee costs for California community colleges compared to other State higher education institutions:

CALIF. COLLEGE RESIDENT TUITION FEES 2009-10

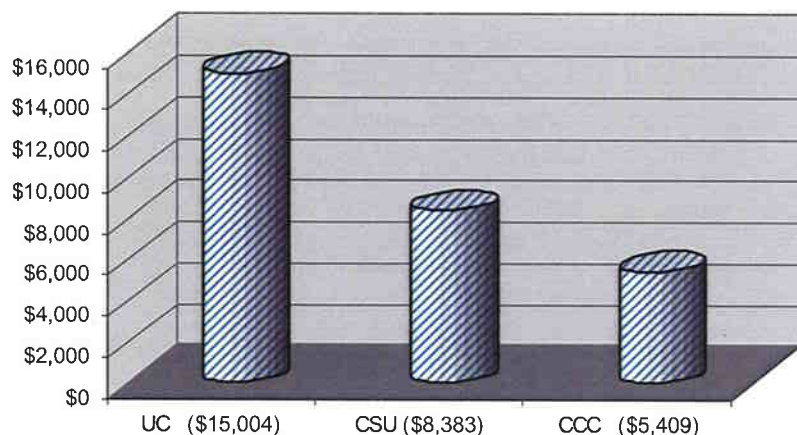

*Source: California Postsecondary Education Commission

California's Community Colleges – Efficient and Effective

The California community colleges represent an outstanding financial and educational value for the largest and most diverse student body in the world. Based upon 2007-08 information provided by the

California Postsecondary Education Commission (CPEC), the Community College System revenue is \$5,409 for instruction per full-time equivalent student, 65% of the same expenditure as the California State University (CSU) System's cost of \$8,383 and 36% of the University of California (UC) System's cost of \$15,004. This maximization of educational resources allows the State to serve more students and to preserve more resources for other important services.

**INSTRUCTION-RELATED REVENUES PER
FULL-TIME-EQUIVALENT STUDENT
(2007-08)**

Source: California Postsecondary Education Commission

Not only does the System provide a high level of cost effectiveness, but California's community colleges

continue to excel in all areas of the System's mission. In 2007-08 13,964 Community College System students transferred to UC; 54,970 transferred to CSU; and 37,786 transferred to other four-year institutions. Community college transfer students earn grade point averages at universities at a level comparable to students who enroll as freshmen at CSU or UC.

In 2007-08 CSU awarded 73,132 undergraduate degrees. Of these, 40,337 or 55.2% were awarded to students who attended community colleges. Of the 42,416 undergraduate degrees awarded at UC, 12,488 or 29.4% were awarded to students who attended community colleges.

The mission of the California Community College System and related responsibilities and expectations have expanded to not only meet academic and vocational education needs, but also to play an active role in the economic development activities of communities and to serve as a leader in the societal transition from welfare to work. With the current economic situation facing the citizens of the United States and California in particular, the California Community College System is positioned to play an increasingly important role in assisting in the training

and retraining of California's workforce to meet the new demands placed on our economy.

While the community colleges have been among the most effective and efficient higher education systems in the world, additional resources are needed to maintain the high level of service to the State's population. Several challenges for the future exist for the System including obtaining the necessary resources to meet the growing responsibilities of the System to educate the people in California in an ever-changing state, national, and world environment.

Summary

Because the amount of funding available for community colleges is relatively low, the corresponding expenditures providing the cost of education are likewise lower than comparative educational institutions as detailed above.

STUDENT GROWTH TRENDS CALIFORNIA COMMUNITY COLLEGE DISTRICTS

The California Community College System, consisting of 72 districts and 110 colleges, currently serves approximately 2.6 million students as new or continuing credit enrollment.

Because a significant majority of a community college's funding is based upon full-time-equivalent students (FTES), it is important to understand growth trends both in the System and at SCCCDC.

California Community College Enrollment and FTES Trends

Over the past five years the California Community College System has undergone some significant changes. In school year 2004-05 the total number of FTES for the System was 1.12 million. The 2009-10 First Principal Apportionment Report (P-2) rose to 1.25 million or 11.5% in the five-year period. The System is not receiving growth funding for 2009-10 and, although the Governor's Budget Proposal in the May Revision recommends growth funding for 2010-11, it seems unlikely the funding will materialize in the final 2010-11 State Budget when you consider the economic situation of the State and the fact that the

community college system had a reduction in funded FTES of 43,596 or 3.6% loss between 2008-09 and 2009-10.

SCCCDC FTES Trends

The State Center Community College District has, during this same time period, worked diligently to maintain FTES growth at a level higher than that of the statewide numbers. During this same five-year period, SCCCDC grew from 26,154 FTES to 32,204 FTES or 23-1%. With the state of the national and California economic downturn, the District will strive to reduce its FTES to more closely match the funded level of FTES, which for 2009-10 is estimated to be 26,621, by targeting a FTES generation level of 110% of funded FTES or 29,283 FTES.

The Final Budget has been developed with no additional State growth funding. The District, Colleges and Centers have maintained their approach to advertising and registration not only to ensure the student population meets the budgeted FTES, but more importantly, to provide services to the residents of the communities served by State Center

Community College District as many people seek educational and job skill training opportunities during these very tough economic times. Since FTES is the single largest factor in generating revenue, the budget will be adjusted as necessary during the year to ensure the State Center Community College District budget is balanced and represents the best evaluation of revenue and expenditures for the District. It is unfortunate the national and local economic downturns have resulted in a significant reduction in funding for the Community College System and, while demand is up, the funding level is down, which will affect the ability of SCCCDC to serve all the students requesting an opportunity to attend SCCCDC and other colleges in the System.

Student Population

The geographic area served by the State Center Community College District represents a significantly diverse population. Following are graphic displays of the makeup of the District's student population:

Source: SCCCDC Office of Institutional Research

SCCCDC Future Funded Growth

Although the Governor's Budget Proposal in the May Revise included 2.2% funding for growth to the community colleges, it has been evident this will not occur with many colleges and even CPEC requesting the restoration of funding and service before growth. In any case, when growth funding does become available, the individual district growth rates will have been based upon four primary factors: (1) the rate of change in the adult population of the local districts; (2) the change in high school graduation rates occurring in district boundaries; (3) adjustments for underserved areas; and (4) a blended rate. The

District will strive to maintain the high level of instructional service which in 2009-10 resulted in the District serving approximately 4,800 FTES beyond the State funding level translating into more than \$21 million in unfunded FTES.

Because the District has experienced significant FTES growth over the past five years and shortfalls in funding from the State, it has become impossible to maintain levels of service equal to the demand placed upon the District. Community colleges have traditionally seen growth during slower economic times with this economic downturn making an even greater demand on financial resources. Unlike prior economic downturns where a turnaround occurred in a few years, this downturn is not expected to show significant movement toward recovery until 2013-14;

hence, efforts have been taken and presented to the Board for the fiscal effects to the District's financial viability for a five-to-six-year period to provide instruction and services to the students and community. The District has been successful and is optimistic about its ability to provide the educational opportunities to its clients even with the shrinking of the financial resources over this difficult financial time.

With similar farsightedness, the State Center Community College District has weathered several dramatic reductions in funding better than many districts in the System. It will continue to meet the educational needs of the community during this financial crisis as well.

STATE CENTER COMMUNITY COLLEGE DISTRICT BUDGET SUMMARY

State Center Community College District (SCCCD) was formed July 1, 1964, and will serve more than 60,000 students on its seven campuses in 2010-11. The District comprises approximately 5,580 square miles, servicing the greater Fresno area, including Fresno County, Madera County, and a portion of Kings and Tulare Counties. The District encompasses 17 high school and unified districts. SCCC is one of 72 community college districts in the State of California and includes two of the 110 colleges, as well as three centers and other community-based offerings.

In addition to the two community colleges of Fresno City College and Reedley College, the approved three educational centers and two outreach centers, as well as a number of community outreach programs in non-District-owned facilities, are all governed by and comprise the SCCC. Each campus has a distinct and unique identity as well as unique program offerings. The District offers higher education opportunities to thousands of students who might otherwise be unable to attend classes beyond the high school level. Associate of Arts and Science Degrees are offered in a wide variety of subjects, as well as many vocational programs.

The District serves a population area in excess of one million residents characterized by a lower-than-state-average income and socio-economic makeup. These demographics create unique challenges to the SCCC in meeting the needs of the communities it serves. State Center looks forward to continuing to meet the needs of its growing and diverse service area.

The District Offices, including the Operations Department, are located adjacent to the Fresno City College campus in Central Fresno. Several Districtwide operations are located at the District Offices including Human Resources, Business Services, District Information Systems Services, Construction and Maintenance, and Operations.

The District is governed by a seven-member Board of Trustees elected from seven by-trustee areas. Regular Board meetings are held at 4:30 p.m. on the first Tuesday of the month. The meetings are held in various locations throughout the District with the meeting/location adopted by the Board of Trustees each December at their organizational meeting.

Following is a budget summary by object for the 2010-11 fiscal year for State Center Community College District:

DISTRICT OFFICE/OPERATIONS BUDGET SUMMARY

The District Office provides many administrative and delivery services available to the various campuses of the State Center Community College District. In addition to the central administration, the District Office provides all personnel/human resources functions, management information systems/data processing functions, purchasing services, accounting and payroll functions, legal services, curriculum coordination, public relations, and coordination of District grants and Foundation activities.

In 1996-97 the operations services, including maintenance, grounds, police, construction, transportation, warehouse, utilities, and safety, were reorganized into centralized services. The purpose of the reorganization was to better service the various

District sites, become more cost effective by utilizing personnel and coordinating contracts and outside purchases, and provide greater consistency in programs for the various campuses, as well as the community at large. The District Operations Department includes 65 full-time employees in the budget, as well as the utilization of part-time staff, to provide the services outlined above.

The District Office/Operations budget includes personnel and operational costs to provide delivery of the various services to the District campuses.

Following is a budget summary by object for the 2010-11 fiscal year for the District Office/Operations:

FRESNO CITY COLLEGE BUDGET SUMMARY

Fresno City College (FCC) has the distinction of being the oldest California community college. Since opening its doors in 1910, FCC has been a model for academic and extracurricular activities. With a student population in excess of 25,000 each semester, Fresno City College is nestled in the central part of the City of Fresno. Students have multiple educational opportunities at the College including availability of over 280 major courses of study for the achievement of an Associate in Arts or Science Degree. Others have found the ever-increasing vocational curriculum with its Certificate of Achievement and employment opportunities appealing. Fresno City College offers training in over 134 vocational/occupational programs.

The College also includes the Career & Technology Center (CTC), which offers open-entry, 20-30 week vocational programs, and The Training Institute, which provides skill-based training to individuals and customized training to local businesses. In November 2002 a \$161.0 million Measure E facilities bond was allocated to Fresno City College with \$40.0 million to purchase and begin the development of a 120-acre site for CTC. The Police Academy, currently at FCC, the Fire Academy, and vocational and general

education classes at CTC will be relocated to this new site.

The Fresno City College campus includes more than 51 buildings located on 104 developed acres. These buildings comprise approximately 792,000 square feet of space for educational and support programs. Continuous renovations and improvements to existing buildings and grounds have been undertaken for the convenience and access of the College's diverse student population. Infrastructure improvements such as those undertaken for HVAC, underground heating loops, and sewer have occurred. Examples of these projects include the modernization of the Art Yard, replacement of fume hoods in the Math Science facility, and replacement of portions of the HVAC underground loop system. Local funds were further enhanced with the passage of the \$161.0 million Measure E facilities bond. Fresno City College was allotted \$52.0 million to upgrade the College's infrastructure, renovate the Old Administration Building (OAB) and other existing buildings, and construct new facilities for the athletics and physical fitness programs.

In addition to providing academic encouragement, Fresno City College offers several options for personal development. The student services area is designed to assist students both academically and personally. Financial aid, counseling, disabled student services, EOP&S, health services, psychological services, assessment testing, re-entry services, outreach, and other services are all available to meet students' varying needs.

The student body is made up of a diverse student population representing various age brackets and ethnic makeup reflective of the greater Fresno community. A wide range of activities and programs encourages participation by our diverse student population. College activities include clubs, student government, athletics, music, theater arts, forensics, publications, and various cultural events. Fresno City College offers a truly comprehensive college environment for its students.

The budget development process created challenges and opportunities to address the regional, national, and world economic downturn. The state economy continues to be equally as challenging with increases in revenue deferrals to the community colleges. Communication has increased throughout the institution, explaining each iteration of the budget process, with a primary focus on the Board-stated principles of reasonable student access, striving to maintain employment of permanent staff, and limiting the impact on the District reserves for economic uncertainty.

Following is a 2010-11 budget summary by object for Fresno City College:

FRESNO CITY

REEDLEY COLLEGE BUDGET SUMMARY

Reedley College was established in May 1926. In 1956 the college relocated to the current site at 995 North Reed Avenue. The college was united with Fresno City College on July 1, 1964, to create the State Center Community College District.

In 1980 the name of Reedley College was changed to Kings River Community College and, subsequently, in September 1997 the Board restored the name of the College to the original Reedley College effective July 1, 1998.

Located at the foot of the Sierra Nevada Mountain Range and bordered by the Kings River, the college offers a unique blend of urban sophistication and rural values. The Reedley community, located 30 minutes from Fresno, is within a two-hour drive of three popular recreational areas: Kings Canyon National Forest, Sequoia National Forest, and Yosemite National Park.

The campus consists of 60 buildings with a total of approximately 407,000 square feet located on

110.8 acres. The campus also includes an additional 300-acre college farm consisting of prime agricultural land.

Reedley College offers a wide variety of educational opportunities. Students may choose to earn a two-year Associate in Arts or Science Degree, a Certificate of Achievement or Completion, or they may prepare to transfer to a four-year university. Students may also gain their career skills by attending one of the college's occupational programs. These programs are designed to give practical training for the careers of today and for the next century. Programs are operated on an 18-week semester system, consisting of fall and spring terms, as well as summer sessions. In addition to the main campus located in Reedley, 11 satellite campuses under the Reedley College program are located in: Fresno (Sunnyside High School), Clovis, Madera, Oakhurst, Selma, Kerman, Sanger, Dinuba, Parlier, Kingsburg, and Fowler.

Reedley College provides unique programs in its land and forestry programs. The campus also provides

unique occupational programs, including computer technology, aviation maintenance, industrial technology, and dental assisting. Reedley College is also only one of 11 California community college campuses to provide on-campus housing or dormitory living.

Reedley College has created a legacy of serving surrounding communities with quality education and will continue to provide innovation and guidance to maintain its status as a leader in education.

In preparing the F.Y. 2010-11 Tentative Budget, communication with the Reedley College faculty, staff, and students continued to be at a very high level to encourage the exchange of information relative

to the federal and state economic crisis and to solicit suggestions for revenue enhancement and cost containment opportunities. The budget provides for reasonable access for students to educational opportunities and strives to maintain employment of existing permanent employees. Additionally, the budget will rely on fund reserves designated for economic uncertainty to operate the college in 2010-11. The use of economic uncertainty reserve funds is a reflection of the current world, national, state, and local economic condition and is designed not to affect the overall fiscal strength of the College or District.

Following is a 2010-11 budget summary by object for Reedley College.

NORTH CENTERS BUDGET SUMMARY

In addition to comprehensive programs at Fresno City College and Reedley College, the District operates several Education Centers in neighboring communities. The most significant programs are concentrated at the Willow International Center (which includes the Clovis Center), the Madera Center, and the Oakhurst outreach site.

Madera Center

The Madera Center has been in existence for over 22 years, initially operating at Madera High School. In August 1996 the State Center Community College District opened a dedicated site for the Madera Community College Center situated on 114 acres. The original development comprises approximately 25 of the 114 acres. The Madera campus is located on Avenue 12 just east of Highway 99 at the edge of the City of Madera. The initial campus consisted of 24 relocatable classrooms and a permanent student services building, along with a relocatable classroom to house the Child Development Learning Center and child-care related programs.

A permanent 26,000-square-foot education and administrative building and utility/maintenance

facility were completed for the 2000-01 school year. Funding from the 2001-02 State Budget Act funded the Academic Village Complex completed in January 2004. The 50,000 square feet of classroom, laboratory, and office space includes academic classrooms and offices, as well as components and laboratory space for biology, physical science, chemistry, computer studies, business, art, and a Licensed Vocational Nursing Program. The project also provided funding to retrofit the educational/administrative building to house the library, student services, and administrative offices.

As a result of funding from the local bond and business donations, a full-service physical education program and facilities has been completed, including a fitness center, aerobic center, and softball field complex.

In addition, the construction of a Center for Advanced Manufacturing opened in fall 2009. The 7,750-square-foot Center supports the Maintenance Mechanic program and future career technical courses that will address local manufacturing business needs. The Madera Center serves 3,000 students, generating a full-time equivalency of approximately 1,890

students per year. The Center offers a wide variety of academic and occupational programs and opportunities for students. Utilizing services and course catalogs from its sister institution, Reedley College, the Madera Center offers over 490 courses each year in 38 areas of study and gives students a choice of transfer, Associate Degree, Certificates of Achievement, and Certificates of Completion. A total of six cohorts of the Licensed Vocational Nursing Program have completed the 18-month Certificate program since May 2004 and a 12-month LVN-RN program is in the final stages of development.

It is anticipated the Madera area will continue to be one of the fastest growing population centers in the Central Valley and will, therefore, continue with its facilities expansion and student growth.

Willow International Center

In response to the tremendous growth in the northeast area of Clovis and Fresno, the Board of Trustees in 2003 completed the acquisition of approximately 110 acres for a permanent site located at Willow and International Avenues, across the street from the Clovis Unified School District's Third Education Center.

The first phase of the Willow International Center was opened for the fall 2007 semester. Funding for the 80,000-square-foot Academic Center One facility in the amount of \$50.0 million was provided through local and State bond funds. Facilities include an open computer lab, additional computer laboratories, a multi-media studio, art studio, physics and science laboratories, forum hall, distance learning and traditional classrooms, library, student services, and offices. Also included with the initial phase are a bookstore, internet café, and utility/maintenance facility.

Additionally, the Phase One facilities include a state-of-the-art Childhood Development Center. Through collaboration with the Clovis Unified School District and State Center Community College District, matching funds were secured through the AB 16 California Joint Use Facilities legislation. The \$6.0 million facility was also opened in the fall 2007 semester and is used as a toddler and pre-school licensed child care laboratory for high school and college students taking Child Development and Pre-Teaching courses.

Tremendous growth has occurred at the Willow International Center. Over 6,000 students now attend

the Center, with a full-time equivalency students (FTES) of 3,566 per year. The Willow International Center offers over 696 courses annually in 45 areas of study and gives students a choice of transfer, Associate Degrees, Certificates of Achievement, and Certificates of Completion through the Reedley College Catalog and curriculum.

Construction is now in the final stage of completion for the Academic Center Phase Two, an 80,000-square-foot facility. Funding for Phase Two in the amount of \$38.5 million was provided through local and state bonds. The facility is located north of the existing Academic Center and includes allied health and science laboratories, a fitness center, dance room, library/learning resource center, student services, offices, and classrooms. This building is scheduled for occupancy in summer 2010. Based upon its current and future growth, the Willow International Center is working with the California Community Colleges State Chancellor's Office and the Accrediting Commission for Community and Junior Colleges in moving towards the goal of achieving full campus status as Clovis Community College, the next fully accredited college in the State Center Community College District.

Oakhurst Center

The Oakhurst Center, serving 500 students and generating a full-time equivalency of approximately 355 students per year, was established as a result of Legislative Mandate (Senate Bill 1607). In fall 1996 the campus relocated from Yosemite High School to its current location in the Central Business District of Oakhurst. In April 1999 the District acquired the 2.7 acres housing the Oakhurst Center campus. The 120 academic and occupational education courses are taught annually in nine relocatable classrooms.

Included within the site are two Distance Learning classrooms, which allow connectivity to sister campuses at Willow International, Madera, Reedley, and Fresno. Also included are a science lab, a computer lab, and an open computer lab established in 2008 for student access. Two additional relocatable classrooms and a restroom were added to the Oakhurst site in summer 2009.

One of the Oakhurst site classrooms is part of a collaborative project serving both Oakhurst Center classes and Madera County governmental events and was funded through a San Joaquin Valley Unified Air Pollution Control District grant to Madera County.

Students can complete their general education, Associate Degrees, and transfer courses at the Oakhurst Center.

Eastern Madera County is a rapidly expanding area with a current population of approximately 30,000. It is anticipated the Center will continue to grow to meet the needs of this ever-expanding community.

Following are budget summaries by object for the 2010-11 fiscal year for the North Centers (Madera, Willow International, and Oakhurst):

LOTTERY/DECISION PACKAGES

Summary

In November 1984 the California Electorate approved a statewide initiative authorizing a State Lottery Program. As part of the initiative, 34% of the lottery proceeds are to be distributed to all public educational entities in the State including local school districts, community colleges, and State university systems.

Since the inception of the Program, there has been a considerable variance in lottery collections and subsequent proceeds to community college districts. These amounts have varied from a high of \$178 per FTES in 1988-89 to a low of \$76 per FTES in 1991-92. Although all 2009-10 collections have not yet been received, it is currently anticipated the District will receive approximately \$3.6 million.

The following chart identifies lottery proceeds to districts since 1988-89 and reflects the variances in proceeds from year to year:

CALIFORNIA STATE LOTTERY
Per FTES Allocations and Estimates
1988-89 through 2010-11

*Projected

In March 2000 the California Electorate approved Senate Bill 20 which requires 50% of any lottery proceed increases from 1997-98 be spent on instructional materials. Since that time, because of the nature of the District's Lottery/Decision Package Program, whereby funds are utilized for one-time allocations largely distributed to the campuses, funding well in excess of this requirement has been expended on instructional materials.

The District utilizes the decision package process whereby funds are allocated out of the prior year's proceeds for one-time, non-salary expenses in areas such as staff development, equipment, minor facility improvements, and scheduled maintenance-related projects. By allocating resources from the prior year's revenues, the District is able to withstand the variances in lottery collections without overspending its budget. This process has allowed the District to enhance programmatic offerings to meet the needs of students and has provided a funding source for minor facility improvements.

With the Budget Crisis of 2008-09 and 2009-10 now extending into 2010-11, the District is using the Lottery decision packages to not only accomplish the objectives outlined above, but also to offset the budget cuts to the

general fund. The District evaluates this recommendation each year and requests Board authorization for specific uses of the lottery decision package funding. In 2010-11 the Colleges/Centers and the District Office have prepared decision packages to ensure adequate operational funds are available to meet the stated goals of the District for student access and continued employment of permanent employees. The proposals were approved through channels at each location with input provided by various employee groups and site representatives.

The decision package proposals have been updated to reflect the most current revenue projection of \$3.6 million. Following is a summary by site of the recommendations for the 2010-11 Lottery/Decision Package Program:

OTHER FUNDS AND ACCOUNTS

Introduction

In addition to the General Fund, the Capital Outlay Projects Fund, and the Measure E Projects Fund, the District operates several additional funds and recognized accounts. Each fund or account is required to account for the respective program revenues and expenditures. In general, each budget reflects the maintenance of the existing program or activities operating within the respective area.

Outlined below is a brief description of each fund and account as well as any changes anticipated for the 2010-11 fiscal year. It should be noted the budgets outlined in the attached document are based upon projected revenues and expenditures and unaudited beginning balances.

Cafeteria Fund

The Cafeteria Fund reflects revenues and expenditures for Cafeteria programs operated by the District. In 2010-11 the Reedley College campus will be the only

site operated in-house by the District. Cafeteria programs at the remaining sites are all based upon third-party Lease Agreements. In 2005 the District extended to 2010 the Agreement with Taher, Inc., to operate the FCC Cafeteria, FCC catering, and the Madera Center food service program. A second restaurant located at the FCC Bookstore is provided through Pacific Café with an Agreement extended in 2009 to 2014. Food service at the Willow International Center is provided by the Willow International Café through a Lease Agreement entered into in 2002 for the Clovis Center and transferred to the Willow International Center. The Agreement is currently administered on a month-to-month basis for the Willow International Center.

In accordance with the California Community Colleges Accounting Manual, funds generated by Lease Agreements, including leased Cafeteria programs, are accounted for in the District's General Fund.

The Cafeteria Fund collects all revenues and expenditures associated with the operation of the Reedley College Program. In 2010-11 the Reedley Cafeteria Program is expected to have revenues matching expenditures in an amount of \$819,375.

Dormitory Revenue Fund

The Dormitory Revenue Fund is the operating account for the Reedley College Residence Hall (Dormitory) and summer camps. It receives income primarily from room rent, as well as interest and other charges, and pays expenses related to day-to-day operations.

It should be noted, while the Dormitory Revenue Fund is budgeted to break even in 2010-11, expenditures outlined in the attached budget do not include all indirect or overhead costs. Through Measure E funding a new Residence Hall opened in December of 2009 which not only provided a modern residential room assignment, but also included upgraded study/computer center and wireless networking for the students. In 2010-11 the Reedley Dorm is expected to have revenues matching expenditures in an amount of \$442,709.

Internal Service Funds

The District Self-Insurance Fund is currently used to receive premiums from the General Fund and auxiliary operating funds and to disburse payments related to long-term disability. The proposed budget thus reflects premiums and operating costs for such operations. The fund balance includes a reserve for the long-term disability plan and workers' compensation, a small reserve for liability and property damage, and a contingency for PERS repayment.

The Other Post Employment Benefit (OPEB) obligation funding issue has gained additional scrutiny in recent years as the obligation has become reportable due to changes in recent reporting requirements for both private and public agencies, with many agencies discovering the imminent obligation against already insufficiently funded retirement programs.

The District has established a fund at the County to transfer monies to fund its OPEB obligation to retired and current employees. The General Accounting Standards Board (GASB) has established Statement Numbers 43 and 45 related to the OPEB which mandates that state and local governmental entities (which include school districts) begin recognizing the

obligation starting with the 2007-08 external audit. The District conducted an actuarial study to determine its OPEB obligation in 2006-07 and updated the study for 2007 and again in 2009. The current study determined the Present Value of the Benefits (PVB) for retirees and active employees is \$45.0 million with an Actuarial Accrued Liability (AAL) of \$31.9 million (Discount Rate at 5.0%). The Annual Required Contribution (ARC) was established at \$3.1 million. The ARC includes the “pay as you go” portion of the District's current payment for retirees, the subsidized portion for retirees currently utilizing the District's health plans, and payment for retirees and current employees based upon a 30-year amortization of the incurred, but not funded, cost for retirees and active employees.

GASB 43/45 does not mandate the funding of the OPEB obligation at this time but does recommend funding the obligation. The State Center Community College District Board began funding the ARC obligation and transferred funds to a District fund at the County in 2006-07. The Board and administration believed it to be prudent to begin funding the obligation made during negotiations many years ago to pay for a portion of an employee's retirement health costs.

Furthermore, full GASB 43/45 compliance requires that the District deposit at a minimum its ARC contribution into an irrevocable trust. The Board approved the establishment of an irrevocable trust to become fully compliant with the GASB 43/45 guidelines. The California School Board Association-sponsored program was approved by the Board in September for the GASB 43/45-compliant irrevocable trust. A State Center Community College District Retirement Board was also established to manage the investments of the fund. The SCCCDC Retirement Board approved the transfer of \$5.7 million representing the 2006-07 and 2007-08 contribution toward the ARC obligation into the trust. The 2008-09 contribution to the OPEB of \$2.8 million was transferred to a District fund rather than the more volatile irrevocable trust account until such time as the Retirement Board and SCCCDC Board believe the funding of the irrevocable trust is within more reasonable investment risk tolerances. The irrevocable OPEB trust and District OPEB fund contains \$6.1 million and \$4.7 million respectively.

Bookstore Fund

The budgets for the campus Bookstores reflect the maintenance of existing services in the District. This includes operation of four retail stores at the six Colleges/Centers in the District. The budgets reflect

adjustments to salary and benefits, as well as other operating expenses. The Bookstore expenditure account reflects the transfer of these funds. The Bookstores are expected to generate approximately \$11.5 million in revenue with \$11.3 million in expenditures.

Co-Curricular Accounts

The Co-Curricular expenditure budgets for each campus include provisions for athletics and athletic insurance, forensics, publications, etc. Major funding sources for Co-Curricular activities at both campuses are from gate receipts for athletic events and transfers from Bookstores and campus allocations. These accounts, although operating separately, are actually an extension of the General Fund.

In 2010-2011 the Bookstore budget transfer for campus Co-Curricular programs will be \$194,400. Additional Co-Curricular funding will be provided

through revenues from “pouring rights” (beverage vendor) agreements. The contracts have been reviewed with Fresno City College choosing to contract with Canteen of Fresno to vend multiple product lines including Coca-Cola and Pepsi products. Reedley College and the North Centers have chosen to remain with Coca-Cola for vending and fountain services.

Direct Student Financial Aid Accounts

These accounts have been established at each campus for disbursing Direct Student Financial Aid, which consists primarily of PELL Grants, Supplemental Educational Opportunity Grant (SEOG) awards, and Extended Opportunity Programs & Services (EOP&S) awards. Funding is provided by the U.S. Department of Education and the State Educational Opportunity Program. Projected expenditures and offsetting revenues are based on the best estimates at this time.

2010-11 CAPITAL OUTLAY PROJECTS FUND 41

Introduction

The District operates several components of its capital facilities projects in the Capital Outlay Projects Fund. Following is a summary of the various capital outlay programs accounted for in this fund.

State-funded Building Projects

The State of California provides funding for community college facilities expansion and remodeling based upon established criteria. Basically, districts become eligible for State-funded building programs based upon the number of students served and the population growth projections for the service area. Because the State has inadequate funding for meeting the capital facilities needs for education, there is a significant backlog of eligible projects waiting for funding.

In 2006 Proposition 1D, which provided \$10.4 billion for K-12 and higher education facilities, was passed by the voters of the State. The Community College System received 40% of the higher education portion of the statewide bond or \$1.5 billion.

Status of SCCC State-funded Projects

SCCCD was approved for \$19.3 million from Proposition 1D funding for the construction of the second academic building at Willow International. This 80,000-square-foot building will house classrooms, science labs, physical fitness labs, a temporary library, and offices. The District matched this funding with \$19.3 million from Measure E. The project is scheduled for occupancy for the 2010 summer sessions.

Scheduled Maintenance and Hazardous Substance Projects

In 2003-04, the State began funding Scheduled Maintenance along with Instructional Equipment in a block grant format. The funds are allocated based on actual reported FTES. In 2004-05 the budget added Hazardous Substances funding to the block grant format. The 2009-10 and now the 2010-11 State Budgets allocated no funding for Scheduled Maintenance projects, which puts into jeopardy the District's funding stream to complete all the projects identified during this fiscal year. The funding for Scheduled Maintenance has been eliminated to

account for the State Budget allocation. The District must continue to maintain its facilities even without State support to ensure the capital investment is not lost through years of neglect and, more importantly, to provide a positive learning environment. Following are the Scheduled Maintenance projects for funding in 2010-11:

1. Repair South Loop Heating Piping – Fresno City College – \$250,000
2. Replace Air Handler at Auto Shop – Reedley College – \$30,000
3. Replace Walk-in Box at Cafeteria – Fresno City College – \$75,000
4. Replace Air Handlers at District Office – \$150,000
5. Reroof Utility Building – Reedley College – \$75,000
6. Renovate Parking Lots Districtwide - \$500,000
7. Remodel Restrooms – Fresno City College – \$100,000
8. Replace HVAC System – Clovis Center - \$50,000

MEASURE E PROJECTS

Introduction

In November 2002 voters passed Measure E, a \$161.0 million bond measure for the District. The District received \$20.0 million from the initial bond sale in the summer of 2003. The initial issuance was followed by a second issuance of \$25.0 million during the summer of 2004, a third issuance of \$66.0 million during the summer of 2007, and a fourth issuance of \$20.0 million in the summer of 2009. This leaves a balance of \$30.0 million yet to be sold from the Measure E program, which is designated for the Southeast Site.

Following are a list of projects and the estimated Measure E expenditures:

1. Old Administration Building, Fresno City College: Total Budget – \$52.4 million. The updated estimate for the project is \$53.9 million based upon the original scope of work representing a 2.9% increase from the 2009-10 estimate. The project provided for stabilizing the entire building and completing tenant improvements in the south and west wings and auditorium. An additional \$1.7 million has been added to the project: for furniture and equipment necessary to occupy the building;

landscaping around the perimeter of the building damaged during the construction process; and to increase funding for change orders to 6% of the project. These additional costs are funded from a variety of sources including fundraising and interest earnings from Measure E bond proceeds. The completed portions of the building are expected to be occupied with students during the spring semester 2011.

2. Southeast Site, Phase 1: Total Budget – \$30.0 million. The project is approved for State funding with a 60% State match. The next opportunity for funding will be from a statewide bond in 2012. Statewide bonds are placed on the ballot in even numbered years for voter approval. The last statewide bond on the ballot was in 2006 with no bonds submitted for statewide voter consideration in 2008 or 2010.
3. Modernization Project, Reedley College: Total Budget – \$3.6 million in funding for modernization (technology upgrades and minor remodeling) and site remediation following the removal of the old residence hall can be completed in 2010-11. The

expenditures are estimated to be \$750,000 in 2010-11.

4. Willow International Center Parking/Road Expansion: Total Budget – \$1.7 million. The design and development of construction documents for submission to Division of State Architect

(DSA) access compliance and the City of Fresno are scheduled for fall/winter of 2010. It is expected the project will be completed during the spring of 2011. The expenditures are estimated to be \$1.7 million for design, fees, construction, inspection and oversight, and other related costs.

**SUMMARY
2010-11 BUDGET

PRESENTED TO BOARD OF TRUSTEES

DATE: September 7, 2010

SUBJECT: Consideration of Quarterly Financial
 Status Report

ITEM NO. 10-52

EXHIBIT: Report

Background:

Enclosed is the June 30, 2010, Quarterly Financial Status Report (CCFS-311Q) for the District General Fund, as required for California community college districts (ECS 84043). In accordance with State instructions, a copy of the report is forwarded electronically to the State Chancellor's Office.

The quarterly financial report reflects projected revenues and expenditures in line with the annual budget, as amended for additional grants, programs, etc. Actual revenues and expenditures are consistent with expectations, allowing for the fact that most of the revenue from property taxes and certain federal monies, i.e., VTEA, is not received until later in the fiscal year. It should be noted that revenues received are down this year due to the deferral of revenue payments (\$703 million statewide) to community colleges to help the State of California with their cash-flow concerns. We have booked a receivable from the State for \$19.8m, the District's share of the \$703m statewide deferral which was received July 16, 2010.

It is anticipated the District will receive funding for 26,240 Credit and 382 Non-Credit FTES for the current fiscal year based on the P-2. As a result of budget cuts in 2009-10, the funded FTES is reduced 1,071 FTES from a 2008-09 funding level of 27,693 FTES.

Recommendation:

It is recommended that the Board of Trustees accept the Quarterly Financial Status Report (CCFS-311Q) as presented.
