Event Summary

A districtwide IT Summit was held on May 29, 2013 at Fresno City College. The goals of the Summit were to bring all District IT staff together to receive updates on college campus IT initiatives and future plans, receive IT training and receive a presentation that provided an overview of developments in current educational technology.

Our speaker for the day was Jim Gaston is Director of IT - Academic Systems for the South Orange County Community College District who presented "From Edison to Jobs."

We had 38 IT staff in attendance for the day which represents 90% of our total IT staff in attendance. An event survey will be going out to provide evaluative feedback and provide data upon which we can begin work to plan out 2014 IT Summit.

Attached is a copy of the day's schedule along with the Bio for Jim Gaston
